REPORT OF THE SELECTMEN.

The Selectmen of the town of Weymouth submit herewith their annual report, with a statement in detail of the expenditures of the different departments of town service for the year ending Dec. 31, 1891.

HIGHWAYS.

At the last annual meeting, the appropriation for the general repair of highways was \$11,000. As is shown in the statement of expenditures for the year, this sum has been exceeded \$49.24. This small excess was occasioned by the purchase, late in the season, of the gravel from the 'Tufts' Library lot. The gravel was of the very best quality, and was obtained at a price which made the whole cost of placing it upon our roads about thirty-five cents per load, when under ordinary circumstances the cost would have been from ninety cents to one dollar per load. During the year more than thirteen thousand loads of gravel have been used in making repairs, and our highways are now in excellent condition. The several sums appropriated for special highway purposes have been expended, but in two instances the appropriation has been exceeded, the amount of the excess being charged to general repair account.

Henry A. Nash was in April chosen Superintendent of Streets, and the local member of the board was given charge of the highways in his respective ward.

No new streets have been laid out during the year, and of those that have already been accepted by the town there remain to be constructed the street leading from Middle Street to Cain Avenue, and that leading from Cain Avenue to connect with the same; Summit Street, leading from Webb Street to Keith Street; and a short avenue off Middle Street. Appropriations will be asked for

for the construction of some of these streets, and also for the construction of Front Street from Federal to Main Street as relocated by the County Commissioners in 1890, and which by their decree must be completed in 1892. It is estimated that at least \$2,000 will be required for this work.

POLICE DEPARTMENT.

There was appropriated for this department the sum of \$2,300, and the balance from 1890 was \$185.36. The expenditures have been \$1,765.90, leaving a balance now on hand of \$719.66, which should be sufficient to carry the department to April 1, 1892.

SUPPRESSING THE ILLEGAL SALE OF INTOXICATING LIQUORS.

At the annual meeting the sum of \$2,500 was appropriated for suppression of the illegal sale of intoxicating liquors in this town. As it was, no doubt, the wish of the town that the money so appropriated *should be used* for that purpose, the Board immediately endeavored to secure the services of our local officers to carry the vote into effect, but in this they were not at the time successful, as none of them were willing to enlist in the service. Officers from out of town were then consulted and negotiations were in progress for securing the services of an officer of experience in such matters from a neighboring city, when our officers decided to undertake the work. This was near the first of June, and since that time they have labored faithfully and well, and have succeeded in closing up many of the places where intoxicating liquors were sold. It is not claimed that all such places have been closed, but it is certain that the number of them has been considerably reduced.

Our officers, as well as the Board, have been rather severely criticised, for, it was charged, the slow and tardy manner in which this business has been conducted, and censured for not immediately making seizures where there was the slightest suspicion that intoxicating liquors might be obtained. It is a very simple matter to

make the assertion that intoxicating liquors are being sold in this or that place, but as everyone knows who has had experience in such matters, it is very difficult to obtain evidence sufficient to convict the party so selling. If, however, some of those who have been the loudest in their condemnation of the course that has been pursued, would go into our courts and there *tell the truth*, cases of conviction would be much more frequent than they now are, and the number of places where liquors could be obtained thereby greatly reduced.

NEW LOCK-UP.

At the annual meeting the sum of \$500 was appropriated for the purpose of building a lock-up in Ward 1. Plans were obtained for a brick building, with three cells, to be located upon the lot owned by the town in the rear of the engine house ; and proposals for constructing the same were received from two different parties, the lowest bid being \$1,000, and it was estimated that \$200 in addition would be required for grading the lot, for stove, bedding, and the other necessary articles that would be required. Under these circumstances the Board did not feel justified in building, and it was thought best to wait and ask the town for an additional appropriation of \$700.

ELECTRIC LIGHTING.

For this purpose there was an appropriation of \$5,000, and there has been expended \$4,962.64, leaving with the unexpended balance of 1890, a balance of \$2,006.46 for the remainder of the year. No additional lights have been added during the present year.

FIRE DEPARTMENT.

There remained in the treasury, on account of this department from 1890, the sum of \$806.18 ; the appropriation of 1891 was \$4,800 ; expenditures for the year \$4,830.87, leaving the balance on hand to cover expenses to April 1, \$775.31.

MISCELLANEOUS EXPENSES.

The appropriation for this account was \$3,200, and there has been expended \$3,832.11, or \$632.11 in excess of the sum appropriated. The excess was mostly on account of election expenses which, under the present method of conducting the elections, have largely increased.

SUITS AT LAW.

The action of Enos D. Raymond (now deceased) *v.* Weymouth, to recover damages for injuries to his real and personal estate, caused by freshets in the years 1886 and 1888, has, during the past year, been heard at length by the Auditor, but his report had not been filed in court at the expiration of the last year.

The action of George W. Gardner *v.* Weymouth, to recover damages for personal injuries, was tried again after two disagreements of the juries, at the last May sitting of the Superior Court, and resulted in a verdict for the plaintiff of \$1,304.16. The defendant's exceptions to the rulings of the justice presiding at the trial are now pending before the Supreme Judicial Court, and a decision is expected to be soon rendered.

No suit against the town has been entered in court during the year.

At the meeting of the Selectmen held on the twenty-first day of September last, a communication from Laban Pratt, Esq., of Boston, was laid before the board, tendering the gift of a "watering trough" to the town, — a copy of which, and the reply thereto are annexed. Under the authority conferred by Sect. 50 of Chap. 27 of the Public Statutes, the Selectmen gratefully accepted this offer, and upon the completion of the very appropriate and finely-wrought granite basin, it was received and placed in position, but the necessary grading was postponed by reason of the frost until spring.

For this kind remembrance of his birthplace by the donor, we respectfully recommend a vote of thanks by the town.

(COPY.)

BOUTWELL AVENUE, DORCHESTER,

SELECTMEN OF WEYMOUTH :

Sept. 18, 1891.

Gentlemen, — It will afford me much pleasure, as a native of the town, to present to you as a gift a stone watering trough, to be placed at the junction of Church and Commercial Streets, under the direction of your Board, free from any expense. If you are willing to accept it please inform me at your earliest convenience.

Respectfully yours,

(Signed) LABAN PRATT.

(COPY.)

OFFICE OF THE SELECTMEN,

LABAN PRATT, Esq. :

WEYMOUTH, Sept. 22, 1891.

Dear Sir, — Your letter of the 18th inst. addressed to the Selectmen of Weymouth, was received by them at their meeting of Monday last, and the generous offer contained in it favorably considered. Whereupon it was voted unanimously to accept with thanks, in behalf of this town, “a stone watering trough” to be placed at the junction of Church and Commercial Streets in Weymouth, as a gift from Laban Pratt, Esq., of Boston, in whom we, in common with our fellow citizens, are most happy to recognize one who, in the midst of an honorable and prosperous business career, often finds opportunity to remember that “he is native, and to the manner born.” I am also directed to say that the Selectmen will be pleased to confer with you in regard to the definite location of your gift, at your convenience.

In behalf of the Selectmen of Weymouth.

Respectfully yours,

(Signed) HENRY A. NASH, *Clerk.*

TOWN DEBT.

The net debt of the town at the close of the year was, \$57,-872.58, being an increase of \$2,628.13, over the debt of 1890. This increase in the debt was occasioned by an over appropriation

on account of Corporation and National Bank tax, \$8,500 having been appropriated, and \$7,412.58 only being received from this source ; also, by an over appropriation on account of State Aid, \$7,230, having been appropriated against the receipt of \$5,925.04. These appropriations are, in the statement presented, reckoned as debts, and with the over drafts on miscellaneous account, highway account, new schoolhouse, and for land purchased from Mr. John S. Fogg, account for the increase in the debt of the town the present year.

A note of \$5,500 will become due on the 10th of March, for the payment of which provision will have to be made.

For the second time within the term of one year, this board has been called to mourn the loss by death, of a valuable member. On the seventeenth day of March last, Hon. Ebenezer Atherton Hunt, the successor of George A. Cushing, Esq., as a member of this board, after a short illness departed this life.

Although for most of the years of his manhood, Mr. Hunt had been actively engaged in business, he yet found opportunity to serve his fellow citizens, on this board, at an earlier period in his life, and in the Legislature of this State, as well as in various other positions of public and private trust ; and in all of these relations he gained the respect and esteem of his constituents, and became widely known as an intelligent, upright, public-spirited, and influential citizen.

The pleasant character of the official connection of members of this board, with their deceased associate, and its most unexpected ending, have added the sense of *personal* bereavement to that which they share with their fellow citizens.

Respectfully submitted,

J. CLARENCE HOWE,
HENRY A. NASH,
LEONARD V. TIRRILL,
JOHN P. BURRELL,
GEO. H. BICKNELL,

Selectmen of Weymouth.

WEYMOUTH, Dec. 31, 1891.

SUPPRESSING ILLEGAL SALE OF INTOXICATING LIQUORS.

REPORT OF GEORGE B. BAILEY AND OTHERS.

WEYMOUTH, DEC. 31, 1891.

Whole number of searches for intoxicating liquors	39
Whole number of liquor seizures	17
Whole number of prosecutions	15
Amount of fines imposed	\$928 75

Three have left town rather than stand trial.

Eight have given up business.

Sent one to the House of Correction; two others waiting sentence from the Superior Court, that have been convicted.

Two are continued from time to time; Fraher and Patrick Healy's.

Have closed up one of the worst gambling dens in East Weymouth.

Respectfully,

GEORGE B. BAILEY,
GEORGE W. FAY,
NATHANIEL B. PEASE,
ASA B. PRATT,
HENRY B. VOGELL,
ISAAC N. TIRRELL,
NATHANIEL R. ELLS,
EZEKIEL MORTON,
FRANK CALDWELL,
MICHAEL ALLEN.

Vouchers for payments made on account of the Tufts Fund, are held by the clerk of the Board of Selectmen, by whom the payments were made.

REPORT OF THE OVERSEERS OF THE POOR.

The Overseers of the Poor of the Town of Weymouth submit herewith their annual report, for the year ending Dec. 31, 1891, together with the Auditor's appraisal of personal property at the almshouse at that date.

ALMSHOUSE.

Mr. and Mrs. Joseph Cummings have continued in charge of the Almshouse during the past year, and the affairs of the institution have been conducted by them in a manner very satisfactory to the Overseers. Owing to the increasing cares and responsibilities that are imposed upon the matron by reason of the growing infirmities of many of the inmates of the house, consequent to advancing years, as well as to the increase in the number of inmates, we regret to say that her health has become so impaired as to render it necessary for her to relinquish the position which she has so long and faithfully occupied.

The resignation of Mr. and Mrs. Cummings has been tendered to the Board and by them accepted, to take effect April 1, 1892.

Numerous applications for the position when the vacancy occurs have already been received, but it has been thought best to take no action in the matter now, but to refer the same to our successors.

The inmates of the house at this date number thirty-five, and the average for the year, including boarders and tramps, has been thirty-three, +, and being a larger number, it is thought, than were ever there before. One birth has occurred in the house and there have been four deaths, viz., Enoch Patterson, Michael Doran, Timothy Fogerty and Michael Hanley. The cost of maintainance has, owing to the increase in numbers, been considerably larger than in past years, while the receipts from sale of crops, wood etc.,

show some increase. The house, outbuildings and fences have been painted during the year, and the gutters on the westerly side of the house concreted, the cost of which, together with the cost of the re-insurance of the property against fire, has been charged to improvement account, the amount so charged being \$595.33.

The amount of assistance rendered to poor out of the house is considerably less than usual, which is due in part to the special provision which is now made for the needy soldier and his dependents.

Payments to cities and towns for assistance rendered to our poor is somewhat less than last year, but the cost of supporting our insane patients shows an increase, with the probability of a still further increase in the future.

Drs. W. A. Drake and E. N. Mayberry have been re-appointed Town Physicians upon the same terms as last year.

The whole cost for the year for maintenance of the poor of the town has been \$10,470.35 and there has been expended on account of the poor of the State, cities and towns, and for other purposes, the sum of \$2,750.28, making the total expenditure on poor account for the year \$13,220.63, which leaves an unexpended balance in the treasury of \$3,552.03 to cover the expenses of the department to April 1, 1892.

Respectfully submitted,

J. CLARENCE HOWE,
HENRY A. NASH,
LEONARD V. TIRRELL,
JOHN P. BURRELL,
GEO. H. BICKNELL,

Overseers of the Poor.

11. Edward Howard Ryan.
11. Minnie Loretta Lyons.
13. Dorothy Garrison Tisdale.
13. Albert Edwin Alstead.
15. John Redmond Tutty.
16. John Joseph Terry.
17. Eva Irene Lord.
17. Mary Esther Toury.
21. Ernest Dyer Trussell.
21. Ethel Louise Hurley.
21. Cora Francis Manuel.
22. Eva M. Dunton.
22. Ida Florence Delory.
22. Alice Wilder Garey.
23. James Thomas Gorman.
24. Alice Francis Burke.
25. George Francis Gloster.
26. Ida May Ryan.
27. Female child of Dennis and Mary Collins.
28. Helen Powers
28. Dennis Francis Reid.
29. Helen Wilder Cowing.
31. Ralph Loud Armington.

February.

12. Frank Howard Watson.
14. Male child of Thomas and Mary Darney.
16. Edith May Hilton.
17. Clara Bell Morrison.
22. Winfield Scott Blanchard
22. Vera Lizzie Torry.
22. Annie Amable.
23. Alice Marion Perry.
24. Eugene Maitland Hutchinson, Jr.
24. Eva Francis Hunt.
25. Margaret Hellena Kil-loury.
26. Stacy Hall Wentworth.

March.

1. Alfred McGlore.
3. Hannah Shea.
4. Teresa Cosidor.
7. Michael Edward Delory.
7. Florence Louise Blanchard.
8. Florence Lee Belle.
12. Guy Cunningham Marden.

March.

- 12. Alfred Russell Thomas.
- 17. Chester Whittier Barnard.
- 19. Bertha James French.
- 19. Louis Bernard Gunville.
- 22. Edith Mildred Willey.
- 23. Jennie Althenia Tisdale.
- 26. Mary Ellen Elms.
- 27. Millard Lincoln Pope.
- 27. Irving Hayden Tirrell.
- 28. Gertrude Bates Tinkham.
- 30. Ethel Damon Bates.
- 30. Female child of Joseph and
Georgie Delory.
- 31. Lillian Howland Keene.

April.

- 1. Johanna McCarthy.
- 1. Annie Louise Crotty.
- 4. Mary L. Pierce.
- 6. Julia Hackett.
- 4. Francis Leo Garrity.
- 7. Michelena Vendre.
- 9. Bertha Augusta Newcomb.
- 9. Joseph Francis Cleary.
- 11. Chester Fisher Wolfe.
- 12. Charlotte Lillian McCraith.
- 12. Thomas Joseph Reid.
- 19. Thomas Henry Dalton.
- 20. Florence Agatha Butler.
- 20. Alice May Sheehy.
- 21. Ralph Edson Jones.
- 22. Lillian Maria Derusha.
- 23. Ellen Ambrose Lewis.
- 28. David Francis Kearns.
- 29. Alida Frances Gardner.
- 29. Susan Gertrude Langford.

May.

- 3. Adin Millard Custance.
- 6. Flora May Howe.
- 8. Male child of Cornelius
and Bridget Lehan.
- 12. Nathaniel Clark Reed.
- 13. Ida May Cronin.
- 13. John Frank Riley.
- 16. Maggie Cristie Veno.
- 19. Female child of Edwin F.
and Angie B. Harris.
- 25. William Henry White.
- 26. Ava Winifred Poole.
- 28. Male child of Frank W.
and Ida W. Sylvester.
- 28. Male child of Viram K.
and Annie L. Cummings.
- 30. Francis Norton Pratt.
- 31. Vincent George Cushing.

June.

- 1. Roger Edward Bates.
- 6. Henry Lewis Doble.
- 6. Female child of George F.
and Amy Sherman, twin.
- 6. Cyrus Burton Sherman.
twin.
- 7. Mary Alice Moran.
- 8. Stanley Heald.
- 9. Joseph Archie Delory.
- 10. Helen Frances Reed.
- 10. Fannie Beatrice Beals.
- 10. Louis Vartie.
- 13. Joseph Stanley Beal.
- 14. Catherine Burgess.
- 14. Harry Williams Roberts.
- 16. Catherine Teresa Meara.

June.

18. George Everett Saunders.
18. Henry Lawrence Duffey.
19. Susan Boyd.
20. Cornelius Smith.
24. Helen Florence Chandler.
28. Stacy Norman.
28. Kate O'Keefe.
28. Theo. Cushing Benson.
28. Margueritte Agatha Connor.
29. James Edward Kennedy.
29. Jennie Alma Bleakney.
30. Eva Gertrude Sprague.

July.

1. Anastasia Fox.
4. Carrie Frances Holbrook.
4. Louisa Sheehan.
4. Margaret Loretta Healy.
6. John Minot Lowell.
11. Michael Francis Allen.
13. Francis O. Farren.
16. John Murray Clapp.
17. Ernest Blaine Coose.
18. Mabel Frances Farrar.
21. Daniel Bourk Mullen.
21. Antonio Cianci.
22. Joseph H. Diselete.
23. Nellie Donovan.
23. Mabel Josephine Everson.
24. Halsey Elwell.
24. Doris Lovell Torrey.
24. Sarah Blanche Etta McArthur.
26. Frederick Warren Harris.
30. James Edward Donovan.
30. Thomas Devlin.

August.

1. Mary Leona Jackson.
1. Lewis Cipullo.
7. Clarence Edward Kennedy.
8. Charles Francis Sheehan.
11. Ralph Merton Dunbar.
12. Ellison Francis Pratt.
14. Mary Winifred Lyon.
15. Charles Augustine Sullivan.
17. Harold Webster Cate.
21. Lewis Segouri Conroy.
21. Catherine Faircloth.
22. Elizabeth Jane Veno.
23. Elizabeth O'Leary.
25. Andrew Edward Young.
26. Marshall Gallant.
27. Mary Barry.
28. Edward Brown Mathewson.
29. Florence Martin.
31. George Lewis Burrell.

September.

1. Maud Elinor Williams.
1. Avis Mackey White.
3. Burton Oliver Stackpole.
3. Ralph Thomas Morton.
4. Female child of Joseph and Fellema Jeffe.
4. Mary Irene Hackett.
11. Helena Elizabeth Adams.
12. Alice Frances Caldwell.
13. Glendon Dexter Ryder.
13. Edith Rublee Canterbury.
14. Mildred Elizabeth Gibson.
15. Rose Ella Monks.
16. Roy Winthrop Haynes.

September.

- 20. Mabel Louise Overy.
- 26. William Francis Green.
- 27. Alfrado Angelo Dondero.
- 27. John Evans Slattery.
- 28. Lillian Beecher Fisher.
- 29. Georgianna Joyce.
- 30. John Maguire.

October.

- 1. Ralph Wilbur Thomas,
- 2. Margaret Corridan.
- 3. William Dunlap Aitkan.
- 8. Margarette Louisa Nelligan.
- 18. Ethel Addie Dow.
- 18. William Bullard.
- 18. Thomas Francis Stewart.
- 19. Johanna Sullivan.
- 19. Donald Clement Fraher.
- 21. Frances Gertrude Taylor.-
- 26. Adaline Motte Bicknell.
- 27. Elizabeth Francis Caulfield.
- 27. Clayton Wells Nash.
- 29. Annie Theresa Hanson.

November.

- 1. Alice May Chambers.
- 4. Alice Russell Crocker.
- 5. Mary Buckley.
- 5. Margaret Louise Delory.
- 8. Ethel Louise Levangie.
- 8. William Edward Keefe.
- 8. Bertha May Cotter.
- 11. Harriet Marr Batchelder.
- 12. Maggie Agnes McDonald.

November.

- 15. William Lawson Griffin.
- 17. Marion Summers Edson.
- 19. Bertha Marnina Goodwin.
- 22. Ralph Leo Croker.
- 23. Inez Ethel Wheaton.
- 23. Female child of John P.
and Arabella Buzzell.
- 23. Emily Augusta Eldredge.
- 23. Helena Vera Ainslie.
- 24. Eleanor Binney Totman.
- 25. Lizzie Vose Carroll.
- 25. Richard Cutter Leland.
- 27. Elsie May Holbrook.
- 28. Patrick Cullinane, Jr.
- 29. Jennie Ruth Looney.
- 29. Bert Washington Gowell.
- 30. Richard Cutter.

December.

- 2. Florence Bicknell Nash.
- 5. Daniel Joseph Desmond.
- 7. Walter Edward Vining.
- 8. Male child of Hosea T.
and Clara I. Poole.
- 11. George Francis Deslauries.
- 11. Catherine Teresa Lane.
- 12. Female child of Michael J.
and Bridget Donovan.
- 14. Ruth Kelley.
- 14. James Lewis White.
- 15. Male child of John F. and
Mary F. Enwright.
- 16. Olive Jane Dowd.
- 16. Flora Alberta Hayden.
- 17. Blanche Harrington.
- 17. Teresa Eugenia Ghiozzi.

December.

- 18. Ralph Thomas Grear.
- 19. Patrick Santacnici.
- 19. Amy Lewis Lovell.

JOHN A. RAYMOND,
Town Clerk.

WEYMOUTH, Jan. 30, 1892.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen :

GENTLEMEN, — I have the honor to submit to you the annual report of the Fire Department for the year ending Dec. 31, 1891, the same being the thirteenth of the present organization.

The Board of engineers have labored zealously and harmoniously for the best interests of the department, and have made some improvements which will add materially to its efficiency. The good feeling which has existed in the various divisions in times past still continues, all the members manifesting pride in the work of the department, and are courteous to their superior officers.

The force of the department consists of one hundred and sixty-three men and five engineers, and is divided with the apparatus in the several wards as follows : —

WARD 1. — W. O. Collier, engineer and clerk.

Hose wagon No. 1, 15 men, 1,350 feet of hose.

Hook and ladder truck No. 1, 15 men.

Assistant hose carriage 5 men, 300 ft. hose.

WARD 2. — F. G. Thayer, engineer and chief.

Hose wagon No. 2, 15 men, 1,950 feet of hose.

Hook and ladder truck No. 2, 15 men.

Steamer, No. 2, 4 men.

WARD 3. — C. E. Bicknell, engineer.

Hose carriage No. 3, 15 men, 2,000 feet hose.

Hook and Ladder Truck No. 3, 15 men.

Steamer No. 3, 4 men.

WARD 4. — M. P. Sprague, engineer.

Hose Wagon No. 4, 15 men, 1,050 feet hose.

L. C. hose carriage 5 men, 900 feet hose.

L. C. set of ladders, 5 men.

WARD 5. — Otis Cushing, engineer.

Hose carriage No. 5, 15 men, 1,600 feet hose.

Hook and ladder truck, 15 men.

Chemical engine, 10 men.

The apparatus of the department is in good condition, is carefully watched, and is kept in as nearly perfect working order as is possible. One of the improvements in the past year was the remodeling of the old hose carriage No. 2, into a wagon, it is built on the most modern plan, is handsome and substantial; the degree of safety insured by this improvement can scarcely be estimated. There are two other carriages, No. 3 and 5; it is the intention of the board to make the same improvements the coming year on one of these.

Hook and ladder truck No. 5 has been in service several years more than its allotted term of usefulness. We would recommend that the town consider the purchasing a new one of more modern design. The last of the old hand engines, the "Gen. Putnam," was sold the past year.

BUILDINGS.

One of the houses has been painted and contracts have been made for the others; when the work is completed the buildings of department will be in as good condition as they have been for years.

FIRE ALARM.

ITS BENEFITS AND ITS RELATION TO OUR FIRE SERVICE.

The value and protection of this service against fires is conceded by all departments everywhere as soon as it is brought to their notice; the underwriters show their estimates of its merits by making a reduction on buildings where this system is adopted; the saving of property would unquestionably be very great and as the adoption needs only the endorsement and co-operation of the towns' people with the department, no town can afford to be without its protection. The authorities should always bear in mind the fact that the fire department is valuable and cannot be dispensed with; that the department is organized and maintained for the

common good of all, and it is an absolute necessity for the welfare of the town, its business interests, and protection of all citizens. The homes of the laborer and the mansions of the wealthy alike need protection from fire, and in time of need all call for aid from the firemen.

The absence of the fire-alarm telegraph in our town has been the cause in many instances of fires getting the upper hand of our firemen. No doubt a large amount of our yearly fire loss can be traced to the neglect of our town to provide means of locating fires in their early stages. Unless something is done towards this matter at an early date, the town will wake up some morning to a sad realization of its mistake in neglecting to provide the department better means of reaching fires. While excellent work can be accomplished with the alarm now in use in Ward 2, the time between the sounding of this alarm and the presence of the firemen on the scene of action is very brief, yet I think that an improvement would be made on this system, as we should then have some way of getting help from other wards when needed. I trust the appropriation committee will give this matter due consideration, and see the necessity of remedying this defect, and thus better serve the pecuniary interests of the town.

APPROPRIATIONS.

The expenses of the department have been kept as small as is consistent with its usefulness and efficiency. It has been the aim of the board to manage the affairs of the department as economically as possible and keep pace with the needed improvements. We would recommend the following amounts to be appropriated: —

For salaries of firemen, stewards, and miscellaneous expenses, \$4,000; for hose, \$500. Should the town take any action in relation to the fire alarm, a complete system would cost about \$2,500. A paper has been circulated and signed by many of the citizens to have all the rooms of the department sheathed, which would cost about \$500 more.

FIRES.

During the year, the department have responded to twenty-seven fires and alarms. The value of real estate and personal property at stake was : —

Value of buildings	\$18,425 00
Damage of buildings	10,546 00
Insurance upon buildings	15,200 00
Insurance paid upon buildings	8,146 00
Value of contents of buildings	18,394 00
Damage to contents of buildings	16,831 00
Insurance upon contents	21,950 00
Insurance paid	15,923 00

The number of fires and alarms in the several wards were as follows : Ward 1 responded to three ; Ward 2 responded to fourteen ; Ward 3 responded to three ; Ward 4 responded to four ; Ward 5 responded to three.

REMARKS.

In closing the business of the year, I will take this opportunity, in behalf of the Board of Engineers and myself, to extend our thanks to all who have in any way rendered the department assistance. To my associates on the board permit me to express my appreciation of the honor and confidence you have so cheerfully rendered, and to all the officers and members of the fire department my most sincere thanks for their support and approval ; may the coming year be as pleasant and the same feeling and harmony be maintained.

Respectfully yours,

F. D. THAYER,

Chief of Fire Department.

REPORT OF THE TRUSTEES OF THE
TUFTS LIBRARY.

The Board of Trustees respectfully submit their thirteenth annual report as follows : —

During the removal of the library building preparatory to the erection of the new structure the library was closed for fourteen days, and therefore was open for the delivery of books only two hundred and ninety days. The total number of volumes loaned for home use during the last year was 58,246, being an average of 200 volumes per day, and making a larger circulation than in any previous year of its history. The largest number of loans in one day was 559 volumes on Sept. 30, the day of opening at the new location; and the smallest number was forty-five volumes, on July 13 and Aug. 10.

Of this circulation 29,436 volumes were delivered to borrowers at the library, and 28,810 volumes were distributed through the agencies, as follows : —

Precinct 1.	Bartlett's store	4,989
Precinct 2.	Salisbury's store	8,698
Precinct 2.	Shaw's store	3,433
Precincts 4.	Nash's store	3,480
Precinct 4.	Lovell's Corner	1,131
Precinct 5.	Foster's store	7,079

This statement of circulation does not include books read or consulted at the library.

CLASSIFICATION OF CIRCULATION.

Arts, three per cent; biography, two and one half per cent; fiction, including juvenile, seventy-four per cent; history, three per cent; literature, three per cent; natural science two per cent;

social science, one per cent ; poetry, one per cent ; travels, five per cent ; theology, one half per cent, and periodicals, five per cent.

The number of volumes added during the year is 642, of which 12 volumes replace worn-out ones, the net gain being 630 books, and the smallest addition in any year. The highest accession number is 13,805.

The whole number of borrowers' cards issued is 6,335, and 340 of these were given out during the last year.

Lists of the new accessions have been published in the *Gazette* before delivery to borrowers, and at the close of the year were all classified in the "Annual Bulletin," which may be purchased at the several agencies and at the library.

The Trustees are not unmindful of the need of a new classified "Finding List" containing all accessions to the library ; but do not deem it expedient, in consideration of the large sums being expended by the town for a new building, to ask an appropriation for this use.

Some of the more valuable books purchased during the year are : Lacroix's Arts in the Middle Ages and the Renaissance ; Bradley's Atlas of the World ; Walker's Atlas of Massachusetts ; Duruy's History of Rome ; Record of the Commemoration of the Two Hundred and Fiftieth Anniversary of the Settlement of Haverhill ; Lecky's History of England in the Eighteenth Century, Vols. 7 and 8 ; La Fontaine's Fables, illustrated by Doré ; Jephson's Emin Pasha and the Rebellion ; Loftie's Westminster Abbey ; Oliphant's Royal Edinburg ; Reclus's Bird's-Eye View of the World : Webb's California and Alaska, etc. ; Wilson's In Scripture Lands ; Biographies of John Ericsson, of Cardinal Newman, and of Paul Revere ; Memoirs of Talleyrand ; Stedman and Hutchinson's Library of American Literature ; and Allen's Great Cathedrals of the World, delivered in parts, has been bound in two volumes.

Twenty-one books bought in paper covers and forty volumes of magazines from the reading room have been bound, and one hundred and ninety-five volumes, whose covers have been worn out, have been rebound.

The annual inspection of the library at the beginning of the new

year was duly made and the books generally found in good condition. Yet nearly one hundred volumes in the classes of "Fiction" and "Juveniles" were found too much worn to be further circulated, and must be replaced. Eight volumes were unaccounted for, and three volumes lost by reason of the removal from town of those to whom they were loaned. [As the rule, borrowers use the books taken out with reasonable care, but the exceptions to this rule are more numerous than seems to us necessary to render it *valid*. The marking of books, by writing marginal notes and otherwise, and the exposing them to rain or snow by carrying without protection in a storm, are instances of bad usage on the part of some borrowers, and if persisted in, must be deemed just cause for the withdrawal of the "cards" of such borrowers.

PERIODICALS.

The circulation of the numbers of the several magazines, after having been taken from the reading room tables, has considerably increased during this year, and the "American Garden" and the "Review of Reviews," both believed to be of great merit, have been added to the excellent list of periodicals heretofore supplied for these tables. The "Art Interchange" has been subscribed for by the trustees, to be loaned as soon as received, to supplement the circulation of the "Art Amateur," the demand for which has been very constant.

The new building in process of erection, under the charge of a special committee of the town, promises to become within a few months a very commodious and attractive home for our Library and Reading Room, with ample space for all anticipated enlargements of each, for many future years. For the liberality of the Town in this regard the board, charged with the duty of promoting its usefulness, takes pleasure in expressing personally, as well as officially, their cordial thanks.

By reason of the sale of the buildings standing on the site now occupied by the new building, their rents have ceased to be available for the support of the Library, and a considerable part of its income has been, temporarily, at least, withdrawn. It therefore becomes our duty to ask the town to appropriate not less than fif-

teen hundred dollars, in addition to half the dog-tax, and the rents which may be received after the completion of the new building, to defray the necessary current expenses of the Library for the next year.

In this connection, the trustees beg leave again to remind the town that the Tufts Library has had very marked success in gaining and holding the interest of our reading public in the library, so that, in the judgement of one of the most competent members of the Massachusetts Free Public Library Commission, for the money we spend, no public library in the State does better work, or has a larger circulation, and that this interest can be retained only by continuing to supply, in frequent and liberal instalments, the best popular literature, obtainable within the limit of reasonable expenditure.

On the twenty-seventh day of March last, Amos S. White, Esq., who had been a member of the board of trustees from the founding of the library, and their clerk and treasurer for about eleven years, departed this life. On the day of his funeral services the trustees in special session unanimously adopted, and published in the next issue of the *Weymouth Gazette*, resolutions of respect and condolence; and his associates now gladly give expression to a more lasting testimonial of their deep grief at his loss, and of their high appreciation of his services in aid of the establishment and the management of the library, as well as of his honorable and useful life during the many years in which he occupied in this town posts of laborious service and high responsibility.

A list of donations to the library during the past year, designating the number of bound volumes and of pamphlets, is hereto appended.

JAMES HUMPHREY,

For the Board of Trustees.

WEYMOUTH, Jan. 1, 1892.

E. W. Gorham, for books	3 75
J. G. Cupples, for books	5 00
Alfred Mudge & Son, for printing bulletins	46 48
J. G. Roberts & Co., for binding books	81 20

Paid Membership fee in American Library Association	\$2 00
Cash on hand Jan. 1, 1892	216 00
	<hr/>
	\$2,836 69

The balance of \$216, together with the unexpended balance of the dog license tax will only be sufficient to pay the expense of maintaining the Library until an appropriation is made at the annual town meeting in March.

FRANK H. MASON,
Treasurer.

REPORT OF THE PUBLIC LIBRARY BUILDING COMMITTEE.

The Public Library Building Committee elected at the special town meeting held April 21, 1891, respectfully submit the following report : —

Your committee met and organized April 28, 1891, and chose a sub-committee of seven to procure plans and estimates to be presented to the committee of the whole.

Several plans were presented, and, after a very careful consideration of all of them, the one designed by J. Merrill Brown, architect, of Boston, was accepted, and he was instructed to obtain bids for a building to be constructed in accordance with his plans and specifications, the same to be erected under his supervision. A contract in behalf of the town was concluded with Mr. Angus McDonald, of Melrose Highlands, Mass., for the erection of a brick building for the sum of twenty thousand eighty-one dollars. This sum does not include the heating, wiring the building for electric lighting, or furnishing, or the finishing of the room above the library room. The contracts for these essential items have not as yet been given, as authorized by vote of the town. Your committee sold at public auction the buildings that

were on the present library site, for the sum of twenty-five hundred and fifty-one dollars and fifty cents, and paid the same to the Town Treasurer, to be added to the amount appropriated by the town. The Library will be completed and ready for occupancy in the course of the next three or four months, and your committee believe they will have the pleasure of delivering a structure that will be both an honor and credit to the town, and one worthy of the object for which it was erected.

FRANK H. MASON,
Clerk Public Library Building Committee.

REPORT OF WATER COMMISSIONERS.

The Water Commissioners of the town of Weymouth respectfully submit their ninth annual report.

The receipts during the past year show an increase of \$2,318.75, as per the following statement: —

Income for 1891 : —

From the town for hydrants	\$8,372 50
Water rents collected	23,391 16
Water rents due	692 62
Total	<u>\$32,456 28</u>
Deduct rents due in 1890	\$1,227 76
Less rebates	89 73
	<u>1,138 03</u>
Total rents in 1891	\$31,318 25
Amount of rents in 1890	28,999 50
Increase for the year	<u>\$2,318 75</u>
Number of services added in 1891	119
Whole number of services	1,873
Water takers added in 1891	123
Whole number of water takers	1,964

(For itemized statements, see the report of the superintendent.)

During the year but few extensions of the main pipe line have been made, though there are several applications now on file from different parts of the town asking to have them made. A list of the applications is given below, with the estimated cost of construction, revenue promised, and the revenue should all those now living upon the proposed lines of extension become water takers.

LOCATION.	Estimated Cost.	Promised Revenue.	Possible Revenue.
Green Street, from Neck Street to house of Francis Fisher..	\$2,145 83	\$36 00	\$54 00
Summer Street, from end of pipe to house of J. R. Bouldry..	3,830 07	36 00	84 00
Essex Street, from Middle Street to Sinclair house.....	2,621 25	18 00	30 00
Washington Street, Lovell's corner to house of C. A. Pratt..	2,160 97	48 00	78 00
Pine Street, Mount Hope Cemetery to house of H. T. Pool..	3,457 70	46 00	72 00
Park Street, from Pine Street to Oak Street.....	1,343 11	15 00	24 00
Oak Street, from Park Street 800 feet westerly.....	694 04	12 00	24 00
Front Street, from Mill Street to Reed house.....	958 81	18 00	42 00
Columbian Street, from end of pipe to a point 750 feet beyond Forest Street.....	4,913 68	42 00	60 00
Forest Street, to first house on the left side from Columbian Street	794 04	6 00	—
Main Street, from end of pipe to Pool's corner	5,352 50	42 00	78 00
	\$28,272 00	\$319 00	\$546 00

Aggregating the above, and the revenue promised is less than 1 1-8% upon the cost of construction, and the revenue, should all of those located upon the different extensions asked for become water takers, would be less than 2%.

All but three of the applications are upon the high-service system.

As the revenue required to pay the interest on our bonds, for payment to the sinking fund, and for current expenses, is nearly 8% upon the cost of the works (as is shown by the statements herewith submitted), the commissioners did not feel justified, upon the statement here presented, in assuming the responsibility of making these extensions.

Mr. Geo. J. Ries and Mr. Geo. W. Sargent still continue in our service, the former as superintendent of the works, and the latter as engineer at the pumping station, and both have performed the duties of their office in a manner very satisfactory to the commissioners.

MILL-OWNERS' AND LAND-DAMAGE SUITS.

The case of the South Boston Ice Company *v.* Weymouth has been settled upon the basis of the vote of the town relating thereto, passed at its last annual meeting (for the terms of which reference is made to the printed record of that meeting), by the entry in court of "neither party."

In the action of John C. Howe *et al.* *v.* Weymouth, the arguments of counsel on the plaintiffs' exceptions to the rulings of the Superior Court, pending at the date of our last report, were heard by the Supreme Judicial Court in November last, and its rescript overruling those exceptions was filed since the beginning of this year, thus ending the last suit against the town for damages resulting from the taking of the waters of Great Pond.

An appropriation of \$3,000 is asked for for the purpose of making such extensions as may be deemed necessary the ensuing year; also an appropriation of \$32,000 from the revenue of the works, to be applied as follows:—

For the payment of interest on bonds	.	.	.	\$16,400 00
For payments to sinking fund	.	.	.	8,200 00
For superintendent's salary	.	.	.	1,800 00
Maintenance of works	.	.	.	2,000 00
Pumping-station	.	.	.	2,000 00
Current expenses	.	.	.	600 00
Office expenses	.	.	.	700 00
Commissioners' services and expenses	.	.	.	300 00
Total	.	.	.	<hr/> \$32,000 00

Respectfully submitted,

Respectfully submitted,

JOHN H. STETSON,

Treasurer.

SOUTH WEYMOUTH, Dec. 31, 1891.

SUPERINTENDENT'S REPORT.

To the Board of Water Commissioners:—

GENTLEMEN,—I herewith present the following report for the year ending Dec. 31, 1891:—

PUMPING-STATION.

The pumping-station and contents are all in good condition, and no repairs have been called for during the year.

The Blake pump has continued its usual excellent work with but slight repairs.

The Deane pump, which was completed in 1890, previous to Nov. 1, had not worked to our satisfaction. On that day the Deane Steam Pump Company sent out a man to overhaul the pump, and after a careful examination several things were found which would interfere with its working properly.

These difficulties were remedied, and on the thirteenth day of the same month a ten-hours' test was made, on the basis of an evaporation of ten pounds of feed water by one pound of coal, the duty obtained being 51,707,485 foot pounds. Since then it has worked better and much more economically, and I think that the pump will give us a much better duty the coming year than it has the past.

The table following this report shows the amount of water pumped, coal consumed, etc., by both pumps.

The grounds and buildings connected with the pumping-station are in good order.

The six-inch drain-pipe back of the station, leading from Hobwell, being broken, it was found necessary to replace a portion of it with six-inch cast-iron pipe.

The culvert between the pumping-station and Randolph Street has been enlarged, and the ditch cleaned out, so I think we shall have no further trouble with it.

POND.

The water in Great Pond has been lower this year than at any time since 1886, it being five feet one inch below the waste way Oct. 3.

DAM.

The dam has been thoroughly repaired. It was found, on examination, that the timbers to the flume were badly decayed on top, but as the bottom parts were sound, we did not think it necessary to put in whole new timbers, so they were cut off and spliced. New top timbers were put in where needed, and the sides replanked with two-inch Norway pine. The wall that supports the earth-work on the east side of flume was taken down about ten feet and relaid, and the two walls on the inside were rebuilt. The waste-way has also been repaired, so that I think everything is now in a safe condition.

STAND-PIPE.

No repairs have been made on our stand-pipe this year.

The water was drawn out in November, the sides and bottom cleaned, and found to be in fair condition.

I would recommend that it be painted both inside and outside this coming spring.

MAINS.

Our water mains have stood the pressure well, only four small leaks having occurred during the year. Two of these were in lead joints, and the other two, in the two-inch mains, were caused by a defective brass nipple and coupling.

I think this speaks well for some fifty odd miles of pipe.

Our extensions have not been as large as in previous years: we have laid 4,162 feet in the streets and private ways, as shown by the table following this report. 523.6 feet of one and one-half-inch and two-inch pipe that was formerly laid in Putnam Street has been replaced with six-inch cast iron. The total length of main pipe now in use is 51 miles, 476 feet.

The main pipe on Commercial Street has been connected with the main of the Braintree works, thereby connecting the two sys-

Eighteen hundred and seventy-three service-pipes have been laid to date. Of these, there are twenty-two that the water has not been let on, and nine that have been discontinued.

Number of feet of each size laid as follows : —

1,658 $\frac{3}{4}$ inch diameter,	39,509.7 feet
180 1 " "	4,940.2 "
18 $1\frac{1}{2}$ " "	760. "
12 2 " "	266.5 "
1 $2\frac{1}{2}$ " "	17. "
1 3 " "	36. "
2 4 " "	28. "
1 6 " "	35. "

Total length of service pipe 45,592.4 "

Number miles of service pipe 8,634 "

Seven old wrought-iron service pipes have been replaced by lead.

One hundred and twenty-three water takers have been added this year, making total number to date nineteen hundred and sixty-four

Two services that were shut off for non-payment of rates have been let on, by the payment of two dollars and the unpaid rates.

7 6-inch blow-offs.

9 4-inch blow-offs.

163.6 feet 2-inch pipe taken out of Putnam Street and replaced with 6-inch.

360 feet 1½-inch pipe taken out of Putnam Street and replaced with 6-inch.

1 1½-inch gate taken out of Putnam Street.

Respectfully submitted,

GEORGE J. RIES, *Superintendent.*

ENGINEER'S REPORT.

To the Weymouth Water Board :

GENTLEMEN, — I respectfully submit the following for the year ending Dec. 31, 1891 : —

The pumps and boilers are in good condition. I have repacked the plungers to the Blake pump, put in one new rubber valve and spring, and also put on a new throttle-valve.

One new valve and seven new springs have been needed in the vacuum pumps.

The spring in the six-inch relief valve between the force and suction mains of the Deane pump broke some time during the night of Sept. 24, so that the check valve between it and the stand-pipe did not close tightly, and before morning we had lost about one hundred thousand gallons of water from our stand-pipe which had run back into the pond and gravity system.

Have pumped for three fires, — April 29 and 30 and Dec. 3.

Let on the high service eight times : Feb. 14, March 8, May 12, June 3, June 23, July 4, July 8, and Dec. 2.

The following tables show the amount of water pumped, coal consumed, etc.

Respectfully submitted,

GEORGE W. SARGENT, *Engineer.*

RECORD OF DEANE PUMPING ENGINE FOR THE YEAR ENDING DECEMBER 31, 1891.

WEYMOUTH PARK COMMISSIONERS' REPORT.

WEYMOUTH, Feb. 5, 1892.

We have but little to add to our reports for the years 1889 and 1890, except to say that there has been expended on the North Weymouth Park about \$40 for the year 1891, in setting out trees, flowers, and shrubs, and taking care of the same, and improving the walks, and paying for the use of the town water, and mowing and trimming the grass; all of which has been done or paid for by private contribution. - We have received the \$75 from Mr. W. L. Bradley, alluded to in our report for 1890, and hold the same for such future use on this park as may be deemed advisable. On the Webb Park there has been expended about \$50 in setting out trees, the cost of which was defrayed by private contribution, and boundary stones have been erected at its angles.

We still hope for new donations of land for parks and playgrounds, and for additional contributions to improve the grounds already given to the town.

Respectfully submitted,

E. S. BEALS,
WM. H. CLAPP,
LOUIS A. COOK,
Park Commissioners.

TOWN RECORDS FOR 1891.

WARRANT FOR THE ANNUAL TOWN MEETING.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss: *To either of the Constables of the Town of Weymouth, in said County,* GREETING :

In the name of said Commonwealth you are hereby required to notify and warn the inhabitants of Weymouth aforesaid, qualified to vote in elections, to meet at the Town House in said town, on Monday, the second day of March next, at nine o'clock in the forenoon, then and there to act on the following articles, viz. : —

ARTICLE 1. To choose a Moderator for said meeting.

ART. 2. To vote on one ballot for the following named town officers to wit: Town Clerk, Town Treasurer, five Selectmen, five Overseers of the Poor, five Assessors, three Auditors, Collector of Taxes, ten Constables, Water Commissioner for three years, Park Commissioner for three years, two School Committee for three years, and three Trustees of Tufts Library for three years; also, to vote on the same ballot, "Yes," or "No," upon the question, "Shall license be granted for the sale of intoxicating liquors in this town?"

ART. 3. To choose all other necessary town officers.

ART. 4. To hear and act upon the reports of the several boards of town officers and of any committee appointed at any former meeting, and to choose any committees the town may think proper.

ART. 5. To see what sum of money the town will vote to raise and appropriate for the support of Public Schools.

ART. 6. To see if the town will instruct the School Committee to employ a Superintendent of Schools.

ART. 7. To see what sum of money the town will vote to raise and appropriate for the repairs of highways, townways and bridges, and to determine the manner of expending the same.

ART. 8. To see what sum of money the town will vote to raise and appropriate for the support of the poor.

ART. 9. To see what sum of money the town will vote to raise and appropriate for the support of the Fire Department.

ART. 10. To see what sum of money the town will vote to raise and appropriate for police service.

ART. 11. To see what sum of money the town will vote to appropriate for the payment of State and military aid to disabled soldiers and seamen, and the families of disabled soldiers and seamen, and to see if they will vote to raise \$1,200 of the same by taxation the ensuing year.

ART. 12. To see what sum of money the town will vote to raise and appropriate for the Tufts Library.

ART. 13. To see what sum of money the town will vote to raise and appropriate for Memorial Day.

ART. 14. To see what sum of money the town will vote to raise and appropriate for discount and remittances on taxes the ensuing year.

ART. 15. To see what sum of money the town will vote to raise and appropriate for the payment of interest that may become due the ensuing year.

ART. 16. To see if the town will authorize its Treasurer, under the direction of the Selectmen, to borrow, in anticipation of taxes, such sums of money as may be necessary to defray the current expenses of the town.

ART. 17. To see what sum of money the town will vote to raise and appropriate for printing and advertising.

ART. 18. To see what sum of money the town will vote to raise and appropriate for care and repair of the Town House.

ART. 19. To see what sum of money the town will vote to raise and appropriate for miscellaneous expenses.

ART. 20. To see what sum of money the town will vote to raise and appropriate for the payment of town officers.

ART. 21. To see if the town will vote to raise and appropriate the sum of \$8,325 for the use of 333 hydrants, and the sum of \$275 for care and water rent of the several drinking fountains the ensuing year.

ART. 22. To see if the town will vote to appropriate, from the revenue of the Water Works for the current year, the sum of \$23,400, to be expended for the following purposes, viz. : \$16,000 for the interest on the Weymouth Water Loan, becoming due the ensuing year ; \$2,700 for the salaries of the superintendent of the Works and engineer of the pumping-station ; \$2,000 for maintenance of the works ; and \$2,700 for all other necessary expenses.

ART. 23. To see if the town will vote to appropriate and direct to be paid to the Trustees of the Sinking Fund, out of the income of water rates for the current year, the sum of \$8,000, to be set apart and invested as a sinking fund, for the payment, at maturity, of the principal of the Weymouth Water Loan Bonds.

ART. 24. To see if the town will instruct its Board of Water Commissioners to petition the Legislature of Massachusetts, at its present session, to authorize the town to increase its debt for the purposes named in Section 4 of Chapter 174 of the Acts of the year 1881, entitled " An act to supply the town of Weymouth with pure water," by the issue of its notes or bonds, to an amount not exceeding \$15,000, in addition to the sum of \$400,000 heretofore authorized for the same purpose.

ART. 25. To see if the town will appropriate the sum of \$2,000, for the purpose of extending the main water-pipe line.

ART. 26. To hear the report of the committee appointed by the town at its last annual meeting to consider the subject of increased accommodations for the Tufts Library, and to take action thereon ; and, if deemed expedient, to appoint any committees, to raise any sums of money by loan or otherwise, and appropriate the same, and to pass all other votes necessary and proper for the erection of a new building upon the lot of land on which the building now occupied in part by the library stands.

ART. 27. To see what sums of money the town will vote to raise and appropriate, or will appropriate, from any money in the treasury, to provide for any deficiencies in the appropriations of the current year, or for any overdraft already made.

ART. 28. To see if the town will vote that it will not avail itself, under its taking of land in and about Weymouth Great Pond, under the provisions of Chapter 174 of the Acts of the Legislature,

passed in the year 1881, so as to prevent, or unnecessarily interfere, in any way, with the rights, if any, that the South Boston Ice Company had, at the time of said taking, or which its grantees of such rights may hereafter have, to cut and take ice from such pond.

ART. 29. To see what sum of money the town will vote to raise and appropriate for electric lighting the ensuing year.

ART. 30. On petition of George W. Dyer and others, to see if the town will vote to raise and appropriate the sum of \$2,500 for the purpose of suppressing the illegal sale of intoxicating liquors in this town, and determine the manner of expending the same.

ART. 31. On petition of John J. Loud and others, "that a sum of money be raised and appropriated for the working of Webb Street and constructing sidewalks on same."

ART. 32. By request of Willis D. Leland, to see if the town will vote to raise and appropriate the sum of \$250 for the purpose of constructing Howard Street, as laid out and accepted by the town in 1890.

ART. 33. By request of F. H. Torrey and others, to see if the town will vote to raise and appropriate the sum of \$150 for the purpose of lowering the grade of Bridge Street between Lovell and Neck streets.

ART. 34. On petition of N. B. Peare, to see if the town will vote to raise and appropriate a sum of money for working the extension of Hawthorne Street to Myrtle Street.

ART. 35. On petition of Wendell T. Dizer and others, to see if the town will vote to raise and appropriate the sum of \$800, to complete the working of Chard Street from Hillside Street to Putnam Street.

ART. 36. On petition of William Tobin and others, to see if the town will vote to raise and appropriate the sum of \$500, for the completion of Lake Street between Shawmut and Charles streets.

ART. 37. On petition of J. Newton Dyer and others, to see if the town will vote to raise and appropriate the sum of \$500 for the purpose of taking up and relaying the bridge over Old Swamp River, so called, on Elm Street, near Mount Hope Cemetery.

ART. 38. To see if the town will vote to raise and appropriate the sum of \$300, for the purpose of rebuilding the bridge on Main

Street, entering upon land of A. S. Howe; also to extend the sidewalk from residence of Edward Halligan southerly.

ART. 39. On petition of Jeremiah Moran, to see if the town will vote to raise and appropriate the sum of \$500, to reimburse him for building a race-way through his property to connect with the town's running across Water Street, and for damage suffered by him from overflow of water on his premises, or act in any way relating to the subject-matter.

ART. 40. On petition of John A. Connell and others, to see if the town will pay \$2.00 per day for all able-bodied men, for work performed for the town, whether by contract or otherwise, and preference be given to the town's people, and that nine hours shall constitute a full day's work.

ART. 41. To determine in what manner taxes shall be collected the ensuing year, and to fix the rate of interest upon all taxes remaining unpaid after the time fixed for payment.

ART. 42. To choose a Committee on Appropriations, to report at the next annual meeting.

ART. 43. To act upon the list of jurors prepared and posted by the Selectmen.

ART. 44. To see if the town will authorize its Selectmen to act as attorneys to defend the town in any suit that may be brought against it.

ART. 45. On petition of Elbridge Nash and others, to see if the town will vote to buy a small piece of land of John S. Fogg, on the southeast corner of Union and Pleasant streets, for the purpose of rounding said corner, and raise and appropriate money for the payment of the same, or act in any way in relation to the same.

ART. 46. By request of Louis A. Cook, to see if the town will vote to change the name of Bates Street to Bates Avenue.

ART. 47. On petition of Isaac N. Hollis and others, to see if the town will put electric lights in the streets from the pumping-station, on Hollis Street, to the corner of Randolph Street, near the residence of Thomas Hollis, and raise and appropriate one hundred and fifty dollars for the same.

ART. 48. On petition of John B. Rhines and others, to see if the town will vote to raise and appropriate the sum of \$500, for

the purpose of constructing Summit Street, leading from Webb Street to Keith Street, as laid out and accepted by the town in 1890.

ART. 49. On petition of William F. Rooney and others, to see if the town will vote to raise and appropriate \$800, for the purpose of working the extension of King Avenue to Broad Street as laid out and accepted by the town in 1890.

ART. 50. By request of Augustus J. Richards, to see if the town will have a new map of the town prepared, and appropriate money for the same, and choose a committee to carry the same into effect.

ART. 51. By request of Augustus J. Richards, to see if the town will cause the drain at the corner of Webb and Commercial streets to be opened; also instruct the Selectmen to have the fences on the south side of Commercial Street near Webb Street set back on the line of the street.

ART. 52. To see if the town will vote to pay to the children of Timothy Kennedy, deceased, the interest on any part of the sum paid by him for a license to sell intoxicating liquors, which became void, by his death, four months after its issue.

ART. 53. On petition of John V. Powers and others, to see if the town will vote to raise and appropriate a sum sufficient to establish a night school in Ward 2 for the next fall and winter.

ART. 54. On petition of John F. Dwight and others, to see if the town will vote to raise and appropriate a sufficient sum to work the widening of Summer Street as accepted by the town in 1890.

ART. 55. On petition of Charles Hawes and others, to see if the town will vote to purchase six hundred feet of hose for Lovell's Corner, and vote to raise and appropriate money for the purpose.

ART. 56. By request, — to see if the town will vote to build a lock-up in Ward 1, and raise and appropriate money for the same.

ART. 57. To see if the town will accept the report of the Selectmen, laying out a new street from Middle Street to Cain Avenue.

ART. 58. To see if the town will accept the report of the Selectmen laying out a new street to connect with a contemplated street from Middle Street to Cain Avenue.

ART. 59. To see if the town will accept the report of the Selectmen laying out a new street from Middle Street to land of Orin F. Pratt.

ART. 60. To see what sum of money the town will vote to raise and appropriate for working the widening and straightening of Front Street between Federal Street and the house of George Reed, as ordered by the County Commissioners, Dec. 16, 1890.

ART. 61. On petition of James L. Lincoln and others, to see if the town will instruct the Board of Assessors to prepare and publish for distribution a list of taxpayers of Weymouth, with the assessed value of their real and personal property and their total tax for the year 1891, and appropriate a sum of money sufficient therefor, or what they will do about it.

Polls will open at 9 o'clock, and may be closed at 1 o'clock P. M.

And you are directed to serve this warrant by posting attested copies thereof, in three public places in each ward in said town, seven days at least before the time for holding said meeting.

Hereof fail not and make due return of this warrant, with your doings thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Weymouth, this nineteenth day of February, in the year of our Lord one thousand eight hundred and ninety-one.

J. CLARENCE HOWE,
HENRY A. NASH,
J. F. DIZER,
LEONARD V. TIRRELL,
E. ATHERTON HUNT,

Selectmen of Weymouth.

NORFOLK, SS.

WEYMOUTH, Feb. 21, 1891.

Pursuant to the above direction, I this day posted up true and attested copies of this warrant in three and more public places in each ward of the town, as herein required.

GEO. W. WHITE, *Constable of Weymouth.*

ANNUAL TOWN MEETING.

Pursuant to the foregoing warrant, a legal meeting of the inhabitants of the town of Weymouth was held at the Town Hall in said town, on Monday, March 2, 1891, at nine o'clock A. M., the meeting being called to order, and the warrant read by the Town Clerk.

ARTICLE 1. Louis A. Cook was elected Moderator by ballot, the check list being used in said election.

ART. 2. *Voted*, To proceed to the election, on one ballot, of the following named Town Officers to wit: —

Town Clerk, Town Treasurer, five Selectmen, five Overseers of the Poor, five Assessors, three Auditors, Collector of Taxes, ten Constables, Water Commissioner for three years, Park Commissioner for three years, two School Committees for three years, and three Trustees of Tufts Library, also to vote on the same ballot "Yes" or "No" upon the question "Shall licenses be granted for the sale of intoxicating liquors in this town."

The following Ballot Clerks were appointed by the Selectmen, Martin Derby and Joel F Dizer, and the oath of office was administered by the Town Clerk.

The following persons were appointed by the Moderator as Tellers: —

S. C. Denton, Wm. Nash, and Henry A. Nash. Mr. Denton and Henry A. Nash were sworn by the Town Clerk. Mr. Wm. Nash being absent, John A. Raymond was appointed to fill the vacancy, and he was sworn by the Moderator.

The Moderator also appointed the following Constables to serve during the day, viz.:

Joseph P. Ford, B. Frank Richards, Asa B. Pratt, Geo. W. Conant, and Geo. B. Bayley, and they were sworn by the Town Clerk.

Everything being in readiness, the voting commenced at 9.15 o'clock A. M.

Voted, That the Polls close at 1.15 o'clock P. M.

Voting ceased at 1.20 o'clock P. M.

The following Tellers resigned at the closing of the polls, viz. : —

Henry A. Nash, S. C. Denton, and John A. Raymond, and the Moderator appointed the following as Tellers, to sort and count the ballots viz. : John W. Bartlett, Frank D. Thayer, Chas. E. Bicknell, and Arthur L. Blanchard, and they were sworn by the Town Clerk.

ART. 3. *Voted*, That a committee of five (one from each Ward) be appointed by the Moderator to nominate all officers not required to be elected by ballot.

The Moderator appointed the following: Samuel Thompson, James J. Mahoney, Edward E. Richards, James Moore, and H. B. Reed, on the above committee.

Voted, To lay this article on the table.

ART. 4. *Voted*, That the reports of the several boards of town officers, as provided, be accepted.

Voted, To accept the following report of the Selectmen of the expenditures of the different departments of town service from Jan. 1, to March 1, 1891.

OBJECT OF EXPENDITURE.	Expended from Jan. 1 to March 1, 1891.	Balance on hand Jan. 1, 1891.	Expended in excess to Jan. 1, 1891.	Unexpended balance March 1, 1891.	Expended in excess of appropriations to March 1, 1891.

There is included in the sum \$5,983.55, expended since Jan. 1, 1891, \$1,463.32, for which orders have been drawn on the Treasurer on accounts which have already expended their appropriations, as follows, viz. : —

State aid, Chap. 301	\$818 00
Military aid, Chap. 279	134 11
Town officers	85 00
Miscellaneous expenses	363 03
Discount and remittance of taxes	60 57
Town House, care and repair	2 61
	<u>\$1,463 32</u>

This amount has been taken from the unexpended balance in the treasury, standing to the credit of other accounts, and should be provided for by appropriations.

ART. 5. *Voted*. That the sum of \$39,000 be raised and appropriated for the support of the public school and superintendent for the ensuing year, and that one half of the money received from dog licenses, the income of the alewife fund, the State school fund, and such sums of money as may be received for tuition from scholars who belong in other towns, be appropriated for the same purpose.

The Moderator appointed N. D. Canterbury, James L. Lincoln, and Francis A. Bicknell, as Tellers, and they were sworn by the Town Clerk.

Voted, That the Town Treasurer, with the approval of the Selectmen, be authorized to borrow the sum of \$2,000, or so much thereof as may be necessary to put a new system of heating and ventilation into the Hunt School building, provided the same shall be ordered by the State police, or any State authority.

The result of the above vote being, Yes, 264, No, 5.

Voted, To take up Article 27.

ART. 27. *Voted*, To appropriate the sum of \$8,500 from the Corporation and National Bank tax for the support of the public schools to April 1, 1891.

To appropriate the sum of \$3,480.75 for the purpose of covering overdrafts on the following accounts: —

Repairs of highways	\$326 36
Construction of drain corner Bridge and North streets	261 47
Miscellaneous account	663 87
Town officers	619 45
Care and repairs of Town House	10 99
State aid, 1890	368 61
“ “ to April 1, 1891	1,230 00
	<hr/>
	\$3,480 75

To raise and appropriate the sum of \$1,560.57, for the following: —

Overdraft on account of discount and remittances .	\$60 57
Overdraft on account of military aid	300 00
Account of miscellaneous expenses to April 1, 1891,	400 00

Account of expenses of town officers to April 1, 1891,	500 00
Account of expenses of police officers to April 1, 1891	300 00
	<hr/>
	\$1,560 57

Voted, To take up Art. 6.

ART. 6. *Voted*, That the School Committee be instructed to employ a superintendent of schools.

ART. 7. *Voted*, To raise and appropriate for the repairs of highways, townways, and bridges the sum of \$11,000, and for Hingham and Quincy bridges the sum of \$1,500.

Voted, That the sum of \$300, now in the treasury, which was raised and appropriated for widening and deepening the Smelt brook, be transferred to Land Damage Account.

ART. 8. *Voted*, To raise and appropriate for the support of the poor, \$12,300, and to appropriate the sum of \$2,500 additional.

ART. 9. *Voted*, To raise and appropriate for the support of the Fire Department the sum of \$4,800, and that \$350 of the amount be appropriated for hose for Lovell's Corner.

ART. 10. *Voted*, To raise and appropriate for police the sum of \$2,000.

Voted, To take up Art. 30.

ART. 30. *Voted*, To raise and appropriate the sum of \$2,500, for the purpose of suppressing the illegal sale of intoxicating liquors in the town. The result of the above vote was : —

Yes	543
No	507

Voted, Not to reconsider the above vote.

Voted, That this sum of \$2,500 raised and appropriated for the suppression of the illegal sale of intoxicating liquors be placed in the hands of the Selectmen, to be used at their discretion.

Voted, To take up Art. 11.

ART. 11. *Voted*, To raise and appropriate the sum of \$1,200 and to appropriate the sum of \$6,000 in addition for the payment of State and military aid to disabled soldiers and seamen and the families of disabled soldiers and seamen.

Voted, To take up Art. 26.

ART. 26. *Voted*, Not to accept the report of the committee appointed by the town at its last annual meeting to consider the subject of increased accommodation for the Tufts Library : —

Yes	328
No	424

Voted, to take up Art. 12.

ART. 12. *Voted*, To raise and appropriate for the Tufts Library the sum of \$1,000, and to appropriate one half of the money received from dog licenses.

ART. 13. *Voted*, To raise and appropriate for Memorial Day the sum of \$500.

ART. 14. *Voted*, To raise and appropriate for discounts and remittances of taxes the sum of \$700.

ART. 15. *Voted*, To raise and appropriate for interest that may become due the ensuing year the sum of \$3,400.

ART. 16. *Voted*, That the Treasurer be authorized, with the approval of the Selectmen, to hire money in anticipation of the taxes of the current year, and also for the payment of any part of the town debt that may become due, and to issue notes of the town therefor ; and the debts incurred under the authority of this vote are hereby made payable from said taxes.

ART. 17. *Voted*, To raise and appropriate for printing and advertising, the sum of \$1,100.

ART. 18. *Voted*, To raise and appropriate for care and repair of the Town House the sum of \$200.

ART. 19. *Voted*, To raise and appropriate for miscellaneous expenses the sum of \$2,800.

ART. 20. *Voted*, To raise and appropriate for town officers the sum of \$6,500.

ART. 21. *Voted*, To raise and appropriate for hydrants, and the care and water rents of drinking fountains, the sum of \$8,600.

ART. 22. *Voted*, To appropriate from the revenue of the water works for the current year the sum of \$23,400, to be expended for the following purposes, viz. : \$16,000 for the interest on the Weymouth Water Loan, becoming due the ensuing year ; \$2,700 for the payment of the salaries of the superintendent of the works

and the engineer at the pumping-station ; \$2,000 for maintenance of the works, and \$2,700, for all other necessary expenses.

ART. 23. *Voted*, That the sum of \$8,000 be appropriated from the net surplus income (after deducting the expenses of the water works and the interest on the water loan) from the water rates received by the Town Treasurer for the water furnished by said works, to be paid over to the Trustees of the sinking fund, for the payment of the Weymouth Water Loan, as required by Section 7 of Chapter 174 of the Acts of the Legislature passed in the year 1881, in the following manner, namely : \$4,000 on the first day of May next, and \$4,000 on the first day of November next, to be held and invested by said trustees as a part of the sinking fund, for the purpose aforesaid.

ART. 24. *Voted*, That the town instruct its Board of Water Commissioners to petition the Legislature of Massachusetts, at its present session, to authorize the town to increase its debt for the purposes named in Section 4 of Chapter 174 of the Acts of the year 1881, entitled "An Act to supply the Town of Weymouth with pure water," by the issue of its notes or bonds to an amount not exceeding fifteen thousand dollars in addition to the sum of four hundred thousand dollars heretofore authorized for the same purpose, and that said Water Commissioners be authorized to appear before the Legislative committee personally or by counsel in aid of said petition (by a unanimous vote).

Voted, To take up Art. 26.

Voted, Not to reconsider the vote passed under this article.

Voted, Not to discharge the Committee on Library. Yes, 145 ; No, 152.

Voted, To take up Art. 53.

ART. 53. *Voted*, To raise and appropriate the sum of \$1,000 for the purpose of establishing a night school in Ward 2, and that it be placed in the hands of the School Committee, to be used as they see fit. Yes, 176 ; No, 75.

Voted, To take up Art. 40.

ART. 40. *Voted*, That the town pay \$2 per day to all able-bodied men for work performed for the town, whether by contract or otherwise, and preference be given to the town's people, and that nine hours shall constitute a full day's work.

ART. 41. *Voted*, That the compensation for collecting taxes shall be six eighths of one per cent on the amount collected.

Voted, That all taxes shall become due and payable on or before the tenth day of October next, and that the collector be instructed to collect forthwith, according to law, all taxes remaining unpaid after that date, with interest at the rate of six per cent per annum.

Voted, To take up Art. 36.

ART. 36. *Voted*, To raise and appropriate the sum of \$500 for completion of Lake Street between Shawmut and Charles streets.

Voted, To take up Art. 31.

ART. 31. *Voted*, To raise and appropriate the sum of \$300 for the working of Webb Street, and constructing a sidewalk on same.

Voted, To take up Art. 29.

ART. 29. *Voted*, To raise and appropriate the sum of \$5,000 for electric lighting.

Voted, To take up Art. 39.

ART. 39. *Voted*, To raise and appropriate the sum of \$500 to reimburse Jeremiah Moran for building a roadway through his property to connect with the towns running across Water Street, and for damage suffered by him from overflow of water on his premises.

Voted, To take up Art. 48.

ART. 48. *Voted*, To raise and appropriate the sum of \$500 for the purpose of constructing Summit Street.

Voted, To take up Art. 61.

ART. 61. *Voted*, That the Board of Assessors be instructed to prepare and publish for distribution a list of tax payers of Weymouth with the assessed value of their real and personal property and their total tax for the year 1891, and to appropriate \$500 for the purpose.

Voted, To take up Art. 49.

ART. 49. *Voted*, To raise and appropriate the sum of \$200 for working the extension of King Avenue to Broad Street.

Voted, To take up Art. 51.

ART. 51. *Voted*, That the Selectmen be instructed to cause the drain at the corner of Webb and Commercial streets to be opened,

and to have the fences on the south side of Commercial Street near Webb Street set back on the line of the street.

Voted, To take up Art. 50.

ART. 50. The article in relation to a map of the town was not carried.

Voted, To take up Art. 25.

ART. 25. *Voted*, To appropriate the sum of \$2,000 for the purpose of extending the main water-pipe line.

Voted, To take up Art. 28.

ART. 28. *Voted*, That the town will not avail itself, under its taking of land in and about Weymouth Great Pond, under the provisions of Chap. 174 of the Acts of the Legislature passed in the year 1881, so as to prevent or unnecessarily interfere in any way with the rights of any, that the South Boston Ice Company had, at the time of said taking, or which its grantees of such rights may hereafter have, to cut and take ice from said pond.

Voted, To take up Art. 32.

ART. 32. *Voted*, To raise and appropriate the sum of \$150 for the purpose of constructing Howard Street.

ART. 33. This article in relation to lowering the grade of Bridge Street was not carried.

Voted, To take up Art. 52.

ART. 52. This article in relation to license of Timothy Kennedy was by vote laid on the table.

Voted, To take up Art. 57.

ART. 57. *Voted*, To accept the report of the Selectmen on laying out a new street from Middle Street to Cain Avenue.

Voted, To take up Art. 43.

ART. 43. *Voted*, To accept the list of jurors as posted by the Selectmen, after striking out the names of Chester W. Binney, Amos W. Blanchard, A. Fenton Bullock, Geo. L. Newton, John N. Our, Alonzo C. Pratt, Adoniram Sidelinger, and adding the names of Frank D. Thayer, Elisha F. Shaw, Benj. R. Kenerson, and Josephus G. White.

Voted, To take up Art. 58.

ART. 58. *Voted*, To accept the report of the Selectmen on laying out a new street to connect with a contemplated street running from Middle Street to Cain Avenue.

Voted, To take up Art. 54.

ART. 54. *Voted*, To raise and appropriate the sum of \$150 to work the widening of Summer Street.

Voted, To take up Art. 59.

ART. 59. *Voted*, To accept the report of the Selectmen laying out a new street from Middle Street to land of Orin Pratt.

Voted, To take up Art. 37.

ART. 37. *Voted*, To raise and appropriate the sum of \$300 for the purpose of taking up and relaying the bridge over Old Swamp River, so called, on Elm Street, near Mt. Hope Cemetery.

Voted, To take up Art. 42.

ART. 42. *Voted*, That the Moderator appoint a committee on appropriations (three from each ward) to report at the next annual meeting.

The Moderator appointed the following : —

WARD 1. James Humphrey, F. H. Torrey, Aug. Beals.

WARD 2. John Carroll, Z. L. Bicknell, N. D. Canterbury.

WARD 3. Geo. E. Porter, John J. Lovell, John W. Hart.

WARD 4. James Moore, F. Dexter Pratt, Lysander Beale.

WARD 5. E. J. Pitcher, E. B. Nevins, Herbert F. Sears.

ART. 44. *Voted*, That the Selectmen be authorized to act as attorneys to defend the town in any suit that may be brought against it.

ART. 45. *Voted*, That the town buy a small piece of land of John S. Fogg, on the southeast corner of Union and Pleasant streets, at its assessed value, for the purpose of rounding said corner.

ART. 46. *Voted*, To change the name of Bates Street to Bates Avenue.

ART. 47. In relation to putting electric lights on Hollis Street was not carried.

Voted, To take up Art. 34.

Voted, To adjourn, 2.20 A. M., Tuesday, March 3.

Attest: JOHN A. RAYMOND, *Town Clerk.*

SPECIAL TOWN MEETING.

COMMONWEALTH OF MASSACHUSETTS,

NORFOLK, SS.

To either of the Constables of the Town of Weymouth, in said County, GREETING :

In the name of said Commonwealth, you are hereby required to notify and warn the inhabitants of Weymouth aforesaid, qualified to vote in elections, to meet at the Town House, in said town, on Tuesday, the twenty-first day of April instant, at 9.45 o'clock in the forenoon, then and there to act on the following articles, viz. :—

ARTICLE 1. To choose a Moderator for said meeting.

ART. 2. To vote on one ballot for one Selectman, one Overseer of the Poor, and one Assessor, to fill the vacancies caused by the death of E. Atherton Hunt.

ART. 3. To see if the town will authorize and direct its Treasurer, with the approval of the Selectmen, to borrow temporarily, in anticipation of the taxes of the present municipal year, the sum of sixty thousand dollars, as the same may be from time to time required, and to give the negotiable note or notes of the town for money so borrowed, and that all such temporary loans shall be payable from the said taxes.

ART. 4. To see if the town will authorize and instruct its Treasurer to prepare and issue coupon bonds of the town, to be denominated “Weymouth Water Loan,” payable in thirty years from the first day of May next ensuing, with interest at the rate of four per centum per annum, payable semi-annually, to an amount not exceeding fifteen thousand dollars, for the purposes expressed, and in accordance with the authority granted in the act passed by the Legislature at its present session, entitled “An Act to authorize the Town of Weymouth to make an additional Water Loan,” and will fix the manner and terms of such issue.

ART. 5. To see if the town will empower its Treasurer, with the approval of its Board of Water Commissioners, to sell said bonds at private sale, or to pledge the same for money borrowed for the purposes named in Section four of Chapter one hundred and seventy-four of the Acts of the Legislature passed in the year one thousand eight hundred and eighty-one.

ART. 6. On petition of N. D. Canterbury and eleven others, "To see if the town will raise and appropriate the sum of twenty-two thousand dollars for the purpose of erecting a Public Library Building on the land donated by the Tufts family, in Ward 3, and will authorize the Treasurer, with the approval of the Selectmen, to borrow the said sum of twenty-two thousand dollars, and to issue the notes of the town therefor for a term of ten years or less, at the discretion of the Selectmen."

ART. 7. "To choose a committee to carry the above article into effect, and erect the building, and to authorize said committee to sell the buildings now standing on said land, if deemed advisable."

ART. 8. On petition of I. N. Hollis and thirty-seven others, "To see if the town will raise and appropriate one hundred and fifty dollars for the erection of electric lights from the pumping-station, on Hollis Street, to or near the residence of Thomas Hollis, on Randolph Street, a distance of about one hundred and fifty rods."

ART. 9. On petition of Charles Hawes and seventeen others, "To see if the town will pay to John Healey the sum of \$54.58, balance due (by vote of the town, under Article 48, of the warrant for the annual town meeting of the year 1890) on 109 1-6 days' labor on the public roads of the town, as per report of the Board of Selectmen, page 84, for the year ending Dec. 31, 1890."

Polls will be open at 10 o'clock A. M., and may be closed at 2 o'clock P. M.

And you are directed to serve this warrant, by posting attested copies thereof, in three public places in each ward in said town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due returns of this warrant, with your doings thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands this thirteenth day of April, in the year of, our Lord one thousand eight hundred and ninety-one.

J. CLARENCE HOWE,
HENRY A. NASH,
JOHN P. BURRELL,
Selectmen of Weymouth.

NORFOLK, SS.

WEYMOUTH, April 14, 1891.

Pursuant to the within direction, I this day posted up true and attested copies of this warrant in three public places, in each of the wards of the town, as herein required.

GEORGE W. WHITE, *Constable of Weymouth.*

SPECIAL TOWN MEETING.

APRIL 21, 1891.

Pursuant to the foregoing warrant, a meeting of the inhabitants of the Town of Weymouth, qualified to vote in elections, was held in the Town House on Tuesday, April 21, A. D. 1891, the meeting being called to order and the warrant read by the Town Clerk at 9.45 o'clock A. M.

ARTICLE 1. Louis A. Cook, Esq., was elected Moderator by ballot, the check list being used in the election.

The Moderator appointed Henry A. Nash and John A. Raymond as Tellers to check the names of persons on voting list, and he also administered the oath to them.

The Selectmen appointed the following Ballot Clerks, viz. : John P. Burrell and Leonard V. Tirrell, and the oath was administered to them by the Moderator.

The Selectmen detailed Isaac N. Tirrell to serve as Constable during the election.

Voted, To close the polls at 2 o'clock P. M.

The Town Clerk prepared 3700 ballots for the election.

At 10 o'clock the Moderator declared the polls open and appointed J. M. Whitcomb, Geo. W. Baker, and Geo. L. Newton as Tellers to sort and count ballots, and F. A. Bicknell and W. H. Clapp as Tellers to count the votes on the several articles of the warrant, and administered the oath to them.

ART. 4. *Voted*, That the town hereby authorizes an increase of its water-loan debt, for the purposes stated in Section four of Chapter one hundred and seventy-four of the acts of the Legislature, passed in the year one thousand eight hundred and eighty-one, to an amount not exceeding fifteen thousand dollars, by virtue of and in accordance with the provisions of Chapter one hundred and ninety-eight of the acts of the Legislature passed at its present session, entitled "An Act to authorize the town of Weymouth to make additional water loan"; and that its Treasurer is hereby instructed to cause to be made fifteen coupon bonds of this town, each for the sum of one thousand dollars as principal, payable in thirty years from the first day of May, A. D. 1891, and bearing that date, with interest payable semi-annually at the rate of four per centum per annum, to be denominated on its face "Weymouth Water Loan," and each bond to be sealed with its corporate seal, and to be signed in its behalf by its said Treasurer, and countersigned by the chairman of its Board of Selectmen; and that said Treasurer is hereby instructed to issue said bonds in such amounts as the Board of Water Commissioners of this town shall, by vote, from time to time request; and that all of these bonds, before issue, shall be approved by said Board of Water Commissioners, and signed by the clerk of said commissioners in attestation of such approval.

The result of the above vote was, Yes, 136; No, 1.

ART. 5. *Voted*, That this town hereby authorizes its Treasurer, with the approval of its Board of Water Commissioners, to sell the bonds of the town authorized to be issued by its last vote, or any portion of them, either at public or private sale, or to pledge the same, as collateral for money borrowed for the purposes stated in Sect. 4, Chap. 174 of the Acts of the Legislature passed in the year 1881, entitled "An Act to supply the town of Wey-

mouth with pure water; and that said Treasurer shall hold the moneys received from the sale or pledge of said bonds, subject to the appropriation thereof, already made, or which may be made by vote of the town, for the purposes above named.

The result of the above vote was, Yes, 169 ; No, 0.

ART. 5. *Voted*, To raise and appropriate the sum of \$22,000 for the purpose of erecting a Public Library Building on the land donated by the Tufts family in Ward 3, and it authorizes the Treasurer ; with the approval of the Selectmen, to borrow the said sum of \$22,000, and to issue the notes of the Town therefor for a term of ten years or less, at the discretion of the Selectmen.

The result of the above vote was, Yes, 238 ; No, 77.

ART. 3. *Voted*, That the Treasurer be and is hereby authorized and directed, with the approval of the Selectmen, to borrow temporarily, in anticipation of the taxes of the present municipal year, the sum of sixty thousand dollars, as the same may be from time to time required, and to give the negotiable note or notes of the town for money so borrowed ; and that all such temporary loans shall be payable from the said taxes.

ART. 7. *Voted*, That the Board of Trustees of the Tufts Library (including the Selectmen) be authorized to carry the above vote into effect, and that they be also authorized to sell the buildings now standing on said land if deemed expedient.

The result of the above vote was Yes, 143 ; No, 137.

Voted, That the Committee appointed to carry into effect the vote of the town to erect a library building are hereby instructed to procure suitable plans and specifications for such building, and to solicit and receive proposals for its erection ; but to incur no further expense unless some responsible party or parties shall have offered to contract for the erection and full completion of such building, in accordance with the plans and specifications approved by said committee for a sum, or for sums which, in the aggregate, do not exceed twenty-two thousand dollars ; but they may receive any voluntary contribution ; also the proceeds from the sale of the old building in addition to this amount. In case such offer shall be received from responsible parties, that said committee is authorized to make, in behalf of the town, a valid contract in writing for

the erection and completion of said building in accordance with the terms of such proposal ; but if no such offer shall be received by said committee, that they shall not make any contract or expend any money for the erection of such building, unless the town, at a subsequent meeting, upon the report of said committee, shall authorize the expenditure of the additional sum, which the committee shall, by vote of two thirds of its members, recommend for that purpose.

The result of the above vote was, Yes, 165 ; No, 0.

Voted, That a committee of five be appointed by the Moderator to retire and bring in a list of five names to be added to the above committee.

The Moderator appointed J. F. Dwyer, Wilmot Cleverly, T. H. Humphrey, Gilman B. Loud, and Edgar R. Downs on the above committee, and they recommended the following persons, who were accepted by the town, viz.

F. A. Bicknell, T. H. Humphrey, J. F. Dwyer, S. S. Spear, and E. R. Downs.

ART. 8. This article in relation to electric lights on Hollis Street was not carried.

ART. 9. This article in [relation to claim of John Healey was not carried.

The committee appointed to sort and count the ballots made the following report : —

No. of names checked on the voting list . . .	141
No of votes registered by the ballot box . . .	143
Whole number of votes cast	143

FOR SELECTMAN.

George H. Bicknell had	133 votes
N. D. Canterbury had	1 vote

FOR OVERSEER OF THE POOR.

George H. Bicknell had	130 votes
----------------------------------	-----------

FOR ASSESSOR.

George H. Bicknell had	127 votes
----------------------------------	-----------

Number of complete blank ballots	7 votes
Blank ballots for Selectman	2 “
Blank ballots for Overseer of the Poor	6 “
Blank ballots for Assessor	9 “

The Moderator declared that George H. Bicknell, having received the largest number of votes for Selectman, Overseer of the Poor, and Assessor was duly elected to these several offices.

The oath was administered by the Town Clerk to George H. Bicknell for the several offices to which he was elected.

Voted, To adjourn.

JOHN A. RAYMOND, *Town Clerk.*

WEYMOUTH, Oct. 28, 1891.

In accordance with Chap. 423, Sect. 101, of the Acts of the year 1890, I this day destroyed all the ballots cast at the elections held in the town Nov. 4, 1890, March 2, 1891, and April 21, 1891, without examining them, or permitting them to be examined by any person.

Attest: JOHN A. RAYMOND, *Town Clerk.*

PRECINCT OFFICERS APPOINTED OCT. 26, 1891.

JOHN A. RAYMOND, Esq., *Town Clerk:*

Dear Sir, — The following were appointed Precinct Officers for the year ending Nov. 1, 1892: —

PRECINCT 3. Oliver Houghton and Thos. Fitzgerald.

PRECINCT 4. Thomas Quinn, Jr., and Nath'l R. Ells.

PRECINCT 5. Michael Allen and Peter Healey.

Very respectfully,

HENRY A. NASH,

Clerk of Selectmen.

WARRANT FOR STATE ELECTION.

COMMONWEALTH OF MASSACHUSETTS,

NORFOLK, SS.

To either of the Constables of the Town of Weymouth, in said County, GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of Weymouth aforesaid, qualified to vote in elections, to meet at the polling places in their respective precincts, to wit : —

In precincts numbered one, two, three, and five, in the halls of the fire-engine houses located respectively in those precincts ; and in precinct numbered four, in the upper hall of the Town House, on Tuesday, the third day of November next, at seven o'clock in the forenoon, then and there to bring into the wardens of their several precincts their votes, on one ballot, for the following-named public officers, to wit : —

For Governor of the Commonwealth.

For Lieutenant-Governor.

For Councillor for the Second District.

For Secretary of the Commonwealth.

For Treasurer and Receiver-General.

For Auditor of the Commonwealth.

For Attorney-General.

For Senator for First Norfolk District.

For Clerk of the Courts.

For Register of Deeds.

For County Treasurer.

For one County Commissioner.

For three Representatives in the General Court for the Fifth Norfolk District.

Also to vote “ Yes ” or “ No ” on the two following proposed Amendments to the Constitution of the State :—

Article of amendment to the Constitution relative to the qualification of voters for Governor, Lieutenant-Governor, Senators, and Representatives.

So much of Article Three of the amendments to the Constitution of the Commonwealth as is contained in the following words: "and who shall have paid, by himself, or his parents, master, or guardian, any state or county tax, which shall, within two years next preceding such election, have been assessed upon him in any town or district of this Commonwealth; and also every citizen who shall be by law exempted from taxation, and who shall be in all other respects qualified as above mentioned," is hereby annulled.

Article of amendment to the Constitution fixing the number of members necessary to constitute a quorum in each branch of the General Court.

A majority of the members of each branch of the General Court shall constitute a quorum for the transaction of business, but a less number may adjourn from day to day, and compel the attendance of absent members. All the provisions of the existing constitution inconsistent with the provisions herein contained are hereby annulled.

The polls will open at seven o'clock in the forenoon, and may be closed at one o'clock in the afternoon.

And you are required to serve this warrant, by posting up attested copies thereof, in three public places in each ward in said town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk of said town, three days at least before the time of meeting aforesaid.

Given under our hands, at Weymouth, this nineteenth day of October, in the year of our Lord one thousand eight hundred and ninety-one.

J. CLARENCE HOWE,
HENRY A. NASH,
LEONARD V. TIRRELL,
JOHN P. BURRELL,
GEORGE H. BICKNELL,
Selectmen of Weymouth.

NORFOLK, ss.

WEYMOUTH, Oct. 24, 1891.

Pursuant to the above direction, I this day posted up true and attested copies of this warrant in three and more public places in each of the wards of the town, as therein required.

B. F. RICHARDS,
Constable of Weymouth.

TOWN HALL, WEYMOUTH, Nov. 3, 1891.

A meeting of the Selectmen and Town Clerk was held at the Town Hall this day, for the purpose of examining the copies of records of votes cast in the several precincts of the town, in accordance with the foregoing warrant, and to make an aggregate of the same, the result being as follows:—

Attest: JOHN A. RAYMOND, *Town Clerk*.

WEYMOUTH, MASS., Nov. 10, 1891.

JOHN A. RAYMOND, Esq.,

Town Clerk:

Dear Sir, — Petitions having been received by the Selectmen, signed by ten or more qualified voters in each of the voting precincts of the town, asking for an recount of the votes cast for Representatives at the election held Nov. 3, A. D. 1891, the Board met at thier office in the Town House this day, and made the recount prayed for, with the following result, viz.: the votes cast for Waldo Turner were found to be two less, and those cast for Albert P. Worthen and James Thompson, one more each than the number reported by the election of officers. No errors were found in the count for the other candidates for that office.

By order and in behalf of the Selectmen.

Very respectfully,

HENRY A. NASH, *Clerk*.

CLERK'S DISTRICT MEETING.

The undersigned, Town Clerk of Weymouth, met the City Clerk of Quincy, at Quincy, at twelve o'clock at noon, Friday, Nov. 13, 1891, the time and place appointed for the Clerks of the Fifth Norfolk District to meet to examine the returns of votes cast in said district for Representatives to General Court, and found that John R. Graham and James F. Burke, both of Quincy, and Zechariah L. Bicknell, of Weymouth, having received the largest number of votes, were duly elected, and so certified according to law.

JOHN A. RAYMOND.

The following is the vote of the City of Quincy for Representatives in General Court as certified to by the city officers: —

Zechariah L. Bicknell, Weymouth	1,102 votes
James F. Burke, Quincy	1,313 “
James H. Flint, Weymouth	1,136 “
John R. Graham, of Quincy	1,289 “
A. W. Sprague, Quincy	77 “
James Thompson, of Quincy	1,270 “
Waldo Turner, Weymouth	50 “
Albert P. Worthen, of Weymouth	1,047 “
J. H. Yeoman, Quincy	73 “

Attest: JOHN A. RAYMOND, *Town Clerk of Weymouth.*

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
OF THE
TOWN OF WEYMOUTH,
INCLUDING THE
REPORT OF SUPERINTENDENT OF SCHOOLS,
AND THE
COURSE OF STUDY,
1891.

BOSTON:
ALFRED MUDGE & SON, PRINTERS,
No. 24 FRANKLIN STREET.
1892.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Weymouth:

Your School Committee, in accordance with the requirements of the Statutes of the Commonwealth, herewith submit for your consideration their annual report for the year ending Dec. 31, 1891. As in past years it has been our aim to increase the efficiency of our schools, and we believe that something has been accomplished toward this end during the past year. We feel confident that a careful examination of our schools will show a degree of excellence in which our citizens may justly take pride.

We wish to call special attention to the course of study recently adopted by your committee and printed in this report. We believe that it will greatly facilitate and improve the instruction in our schools, by giving the teachers a comprehensive view of the work that is expected of them.

The sum appropriated at the annual town meeting for the support of schools was as follows: —

From April 1, 1891 to April 1, 1892	.	.	.	\$37,200 00
For salary of Superintendent of Schools	.	-	.	1,800 00
To liquidate deficit for last year	.	.	.	8,500 00
To which was added the alewife fund	.	.	.	252 00
One half of the dog license tax	.	.	.	606 00
State school fund	.	.	.	70 00
Tuition of non-resident pupils	.	.	.	20 00

Total	\$48,448 00
-----------------	-------------

Balance in the treasury Jan. 1, 1891, for the support
of schools from Jan. 1, 1891 to April 1, 1891 . \$1,137 05

Total	\$49,585 05
-----------------	-------------

Expenditures from Jan. 1, 1891 to Jan. 1, 1892: —

Salaries of teachers	\$25,493 25
Salary of Superintendent	1,755 00
Text-books and supplies	2,522 27
Fuel, janitors, and cleaning	4,230 42
Incidentals	328 77
Miscellaneous	1,416 30
Truant officers	87 00
Repairs (including changes and additions ordered by the State)	3,703 34
Total	<hr/> \$39,536 70

Leaving a balance for the support of schools from

Jan. 1, 1892, to April 1, 1892, of . . . \$10,048 70

At the beginning of the year the school committee felt that the most rigid economy should be exercised in all departments of the school work. The superintendent of schools has used every effort to carry out the wishes of the committee, and we refer with satisfaction to our financial statement, which, we believe, will convince the readers that everything has been done that could be done to bring the expenditures within the appropriation.

It is with pleasure that the committee call your attention to the able, economical and common sense manner which has characterized the work of Mr. I. M. Norcross, Superintendent of Schools. He has fulfilled the duty of superintendent to the satisfaction of every member of the committee. The standard of excellence which has been maintained is sufficient evidence of his unwearied and careful administration. For a more complete outline of his work we refer to his interesting report, which, with special reports appended thereto, will place before you in detail the work of the schools during the year.

CHANGES OF TEACHERS.

So long as cities and other large towns can offer better inducements to teachers than we can, and so long as young men are seeking the best young ladies in town to make them wives, our corps of teachers will continue to be drawn upon largely. Since

the last annual report was presented there have been fifteen withdrawals, twelve transfers, fifteen appointments and two deaths. Although this is an unusually large number of changes, it frequently happens year after year that we lose between one-sixth and one-fifth of our entire teaching force. It can easily be seen, therefore, that to maintain the general excellence of our schools the aim must be, whenever a vacancy occurs, to find the best teacher that can be secured for that particular place. The list of changes is as follows :

EVENING SCHOOL.

Chapter 174 of the acts of 1883 provides : —

1. Every town and city having ten thousand or more inhabitants shall establish and maintain, in addition to the schools required by law to be maintained therein, evening schools for the instruction of persons over twelve years of age in orthography, reading, writing, geography, arithmetic, drawing, the history of the United States, and good behavior. Such other branches of learning may be taught in such schools as the school committee of the town shall deem expedient.

2. The school committee of such towns shall have the same superintendence over such evening schools as they have over other schools, and may determine the term or terms of time in each year, and the hours of the evening during which such schools shall be kept, and may make such regulations as to attendance at such schools as they may deem expedient.

In accordance with the above Public Statute of Massachusetts, and in response to an article inserted in the town warrant, the citizens of Weymouth voted, at their last annual town meeting, to raise and appropriate the sum of \$1,000, for the purpose of establishing and running an evening school in Ward II. As the statutes require such schools to be under the control of the school committee your committee have attended to this added duty to the best of their ability, and submit a short report of the school.

In October the following notice was inserted in the Weymouth paper, and also distributed through the town by means of large posters : —

1891. FREE EVENING SCHOOL. 1892.

All persons over twelve years of age, desiring to attend an evening school during the fall and winter for instruction in arithmetic, geography, drawing, United States history, reading, writing, etc., can obtain permits by applying in person at either of the places named below, between 7.30 and 9 o'clock.

NORTH HIGH SCHOOL.

On the evenings of Sept. 28 and Oct. 5.

SOUTH HIGH SCHOOL.

On the evenings of Sept. 29 and Oct. 6.

BICKNELL SCHOOL.

On the evenings of Sept. 30 and Oct. 7 and 10.

This school will open at East Weymouth, on or about Monday evening Oct. 12, and continue three evenings a week, Monday, Tuesday, and Thursday, for ten or more weeks.

WM. A. DRAKE,

JOS. A. CUSHING,

Special Committee on Evening School.

In response to this notice, one hundred fourteen persons made application and were given permits to enter the school. The educational qualifications of the applicants ranged from beginners in reading to graduates of high schools. Although such a variety of ability presented itself, we were able by careful grading, to divide the school into four sections; thereby requiring the services of four teachers only, yet giving all a very good opportunity to pursue studies adapted to their needs.

The school opened on the evening of Oct. 19, 1891, with about eighty pupils in attendance. This number was increased night after night, until one hundred twenty-six names were recorded in the registers. As is the case in all evening schools, this number was not constant. The few who came to see what was going on, and to have some fun, finding an orderly and interested school, stayed away; some, finding that the evening work conflicted

with other work, or finding that it was too much for them to carry on in connection with the day duties, soon dropped out. The numbers were thus diminished to about eighty pupils, who attended with a good degree of regularity until the Christmas vacation.

The second term began on Jan. 3, but with a reduced number of pupils and a consequent reduction in the teaching force. Doubtless the prevailing epidemic and the exceedingly stormy weather were largely accountable for the falling off. At the present writing, Feb. 20, the school is in session, therefore a record of attendance for the second term cannot be given. The record for the first term is given below:—

Total number of names taken	127
Largest number present any evening	112
Average attendance	70

It is due to the evening school pupils to say that a more orderly and well-disposed evening school could not be found in the State. The order of the advanced classes and the interest showed by the pupils in their studies would have done credit to a high school. In the lower grades, to have seen the earnestness with which those middle-aged men, deprived of school advantages in their youth, took hold of their studies, would have convinced any one that the money spent by the town in their behalf was well-spent.

One of our greatest difficulties in running the school was to secure suitable teachers. There were plenty of persons who would have liked the job, but we believe that to make any school a success good teachers are needed. After looking about considerably for suitable persons to take charge of the school we were obliged to fall back upon our day-school corps of teachers or give larger salaries than we were able to pay. By using our day-school teachers we are sure of good evening schools, but we fear that it may be somewhat at the expense of our day schools.

REPAIRS.

During the past year your committee have attended to this important part of their official duties, and are pleased to report the school buildings of the town in better condition than ever before. It has been our aim, for the past few years, whenever repairs have been necessary, to make substantial and lasting improvements

rather than to resort to temporary patching. We believe if this policy is continued a few years longer it will put our school property in such condition that it will reflect credit upon the intelligence and wisdom of the citizens of our town.

Certain changes have been made, by order of the State authorities, in the heating and ventilation of the South High School building, which will be noted under a separate heading. Below we give in detail the regular repairs that have been made in the different wards of the town during the year.

WARD ONE.

The Athens school-house has been painted inside and the walls and ceilings tinted. This building and the River schoolhouse are in very good repair. The Adams building will have to be painted during the coming summer.

WARD TWO.

The front of the Bicknell schoolhouse has been clapboarded, and the buildings and fence painted two coats. To accommodate the increased number of pupils several new seats have been added to the Middle Street building. A new fence has been built between the main house and the sanitary buildings at the Washington. The heaters in this building have never been of sufficient capacity to warm the rooms in the coldest weather. Often during the winter it has been impossible, in some of the rooms, to obtain a temperature of over fifty degrees before noon. For the comfort and health of the pupils the teachers of these rooms have sometimes been obliged to send their pupils to other rooms or to dismiss their schools. Your committee, believing that the welfare of the pupils in this district demanded the extra expense, have decided to reënforce the heater by adding a hot air furnace. Owing to the faulty construction of the steam radiators and pipes in this building we have found it necessary to take down and reset them.

On the ground of economy and safety it was deemed best to introduce electric lights into the Franklin schoolhouse to light it for the evening school. New blackboards should be placed in this house, and new seats put into the vacant room for the use of the evening school. A bad leak in the roof of this building will necessitate considerable work, but with these exceptions no large repairs will be required in this ward.

WARD THREE.

As a result of the fire last spring near the High School, this building was damaged to the amount of about \$400. It had to be newly shingled, two of the rooms painted, and some other repairs of minor importance made. This schoolhouse is in very poor repair and will require considerable labor and expense to put it in good condition.

No repairs have been made on the Tufts during the past year. This schoolhouse should be provided with furnace or steam heat and with new slate blackboards.

The sanitary condition of the Lincoln building and the out-houses of this and the Hunt, in the same yard, were such that the committee felt that a thorough renovation should be made. The Lincoln cellar has been drained and cemented, the cellar walls and ceiling white-washed. The out-buildings have been moved to the back part of the yard and put in good repair. Both the Hunt and Lincoln buildings should be painted, and the former provided with a new system of heating and ventilating. When these suggestions are carried out both buildings will be in good repair.

WARD FOUR.

At the Shaw schoolhouse a new floor has been laid, and new seats put into one room. No other repairs of importance have been made in this Ward.

During the coming year the Shaw and Holbrook buildings should be painted and the Shaw should be provided with slate blackboards.

A new floor will be necessary in the Pratt building.

WARD FIVE.

The South High has been painted two coats, and other repairs made under the direction of the State Inspector, which will be noted further on. This building is now in good repair.

The Pond buildings have been painted two coats, and are now in good repair. The other schoolhouses in this ward have required small repairs only. Some work will have to be done on the heater in the Bates building, and new blackboards will be required in one of the other houses.

ORDERED BY THE STATE INSPECTORS.

At the last annual town meeting it was voted to authorize the Town Treasurer to borrow \$2,000, to defray the expense of putting a new heating and ventilating apparatus into the Hunt school-house, provided that your committee were directed so to do by the State Inspectors. As no orders have been issued to the committee by the State authorities nothing has been done. The heaters in this building were never of sufficient capacity to heat the entire building, and now that they are nearly worn out we would respectfully recommend that the same vote be passed at the next town meeting.

The following correspondence in regard to changes and improvements ordered by the State, that were not commenced at the beginning of this year, will, we think, explain itself.

WEYMOUTH, May 25, 1891.

RUFUS R. WADE, *Chief Inspector:*

Dear Sir,—Considering the fact that many of the improvements in ventilation, heating and sanitation in the schoolhouses in this town, ordered by Mr. Pope, have not been commenced, and also that during the past year this town has expended nearly \$5,000 in improvements ordered by your board, and that still further improvements have been ordered for the present year (which in my opinion will be carried out), the School Committee respectfully ask that all orders issued by Inspector Pope be suspended until it will be convenient for you to order another inspection.

In explanation I will say, that many of our citizens believe that some of those orders were unnecessary, and were made without a proper inspection of the premises; and unless the orders are suspended until another inspection can be made the School Committee will feel obliged to ask the Board of Health to grant a hearing as provided by law.

Very respectfully,

W. A. DRAKE,
Chairman School Committee.

MASSACHUSETTS DISTRICT POLICE.

OFFICE OF THE CHIEF OF THE DISTRICT POLICE,

COMMONWEALTH BUILDING,

BOSTON, MASS., MAY 26, 1891.

W. A. DRAKE, *Chairman School Committee:*

Dear Sir,—Yours of the 25th received. In reply, would say that your request, expressing the feelings of the School Committee, will be granted, and another inspection will be made.

Respectfully,

RUFUS R. WADE,
Chief District Police.

It may be proper to add that the Inspector has not renewed the orders referred to above, which would have cost the town at least \$4,000.

On the 24th of March, Inspector Brown notified the committee that he should inspect the South High building, and requested the presence of the School Board. Several members were present during the inspection, and were fully convinced of the necessity of the following orders : —

In the Service of the Commonwealth.

DISTRICT POLICE.

DEPARTMENT OF INSPECTION OF FACTORIES, WORKSHOPS AND PUBLIC BUILDINGS.

OFFICE, COMMONWEALTH BUILDING.

BOSTON, MARCH 26, 1891.

To WILLIAM A. DRAKE, Chairman of the School Committee of the Town of Weymouth, County of Norfolk, Commonwealth of Massachusetts.

In compliance with the provisions of the Statutes of the Commonwealth relating to the inspection of factories and public buildings, on the twenty-fourth day of March, 1891, I inspected the building known as the South High School, located at South Weymouth, and you are hereby notified that it appears to me, after a careful inspection, that further and different sanitary provisions and means of ventilation than those now provided are required in said building, in order to conform to the provisions of Sects. 1 and 2 of Chap. 149 of the Acts of the Legislature of the year 1888.

And you are hereby directed to provide better and additional means of ventilation in said building by means of brick or metallic flues or ducts, aided by heat or mechanical means.

Also, that the cellar of said building must be drained of the water standing therein, and proper measures taken to keep it in a healthy condition.

All of which is to be done subject to the approval of this department.

EDWIN Y. BROWN,

Inspector of Factories and Public Buildings.

Approved,

RUFUS R. WADE, *Chief Inspector.*

In compliance with the above instructions, a contract was made with the Barstow Furnace Company, to heat and ventilate the building satisfactory to the State Inspectors, for the sum of \$1,000 exclusive of mason and carpenter work. The apparatus has been completed and is working to the satisfaction of the committee.

The heating and ventilating systems in the Athens and Franklin buildings, introduced last year, continue to give general satis-

faction. We believe that all of the large school buildings should be supplied with something similar.

We would respectfully ask for the following appropriations for the ensuing year:—

Salaries of teachers	\$26,500 00
Janitors, fuel, and cleaning	4,400 00
Text-books and school supplies	3,200 00
Repairs of school buildings	3,500 00
Miscellaneous expenses	1,500 00
Incidentals	500 00
Total	<u>\$39,600 00</u>

This may be reduced, by—

One half of the dog license tax	\$594 13
Ale wife fund	252 00
State school fund	106 12
Tuition of non-resident pupils	10 00
Total	<u>962 25</u>
Leaving a balance to be raised by taxation, of	<u>\$38,638 75</u>

Respectfully submitted,

WILLIAM A. DRAKE,
JOSEPH A. CUSHING,
AUGUSTUS J. RICHARDS,
JAMES H. FLINT,
BRADFORD HAWES,
HENRY A. THOMAS.

SUPERINTENDENT'S REPORT.

GENTLEMEN OF THE SCHOOL COMMITTEE,— I have the honor and pleasure of submitting to you my second annual report of the schools under your charge :—

The year has certainly been one of hard and faithful work on the part of our teachers, and may fairly be said to have been one of advancement in our schools. The relations between teachers and pupils, and parents and teachers, have been pleasant to an unusual degree. This indicates that the teachers have made special effort to adapt the work of the school to the pupils, and to characterize its management by patient, steady and firm cheerfulness ; thereby not merely securing quiet and orderly rooms, but those more important results which have to do with the characters of the pupils under their control. Our *best* teachers are not satisfied to do as good teaching as they did last year, but are constantly laboring to improve their methods of instruction and discipline. They take and *read* educational papers ; attend educational meetings, even during vacation time ; visit other schools, when they can see the best work, rather than to prolong a vacation or to visit friends ; study the history and science of education, and the art of school management ; and carefully observe the physical, mental and moral development of each pupil, in order to assist in strengthening the weak places in body, mind and character. If it were possible to make teachers' salaries depend upon intelligent and inspiring teaching, rather than upon length of service, and grade of school, the efficiency of the public schools would be increased immeasurably.

In the appendices may be found special reports from the Principals of the High Schools, the Instructor in Music, with other matters of interest concerning the schools.

SUMMARY OF STATISTICS.

Valuation of the town, 1891	\$6,074,185 00
Value of all school property	141,000 00
Value of books, apparatus, etc.	4,375 00
Current school expenditures (including ordinary repairs) .	40,673 40
Cost per pupil, based upon enrolment	18 82

Per cent. of school expenditures to valuation, .0067.

Heating and ventilating the South High School building . \$1,000 00

POPULATION.

Population of the town, United States Census, 1890 . . .	10,882
Population of the town, United States Census, 1880 . . .	10,578
Number of children in the town (School Census, May 1, 1891), between five and fifteen years of age	1,777

Distributed by wards as follows:—

Ward I., 227; Ward II., 656; Ward III., 393; Ward IV., 204; Ward V., 297

School population of the town for the six years from 1886 to 1891, inclusive:—

1886	1887	1888	1889	1890	1891
1,860.	1,823.	1,739.	1,906.	1,863.	1,777.

PUPILS.

The following table is based upon the school registers, for the year ending June 27, 1891:—

Number pupils enrolled (excluding duplicate enrolments)	2,161
Average membership	1,831
Average daily attendance	1,666
Average per cent of attendance	91
Number of pupils fifteen years or over	224
Number of pupils sixteen years or over	116
Number of pupils between five and fifteen	1,869
Number of pupils between five and eight	603
Number pupils between eight and fourteen	1,131
Number pupils not absent for the year	61
Number truants (reported)	87
Number visits by members school committee	338
Number visits by the superintendent	597
Number visits by the music teacher	886
Number visits by others	6,520

SCHOOLS.

Number high schools	2
Number of grammar schools	21
Number of primary schools	14
Number mixed schools	10
Number school rooms in use	52

TEACHERS.

Teachers in high schools, male 2, female 5	7
Teachers in grammar grades, male 5, female 16	21
Teachers in mixed grammar and primary, female	10
Teachers in primary, female	14
Teachers in evening schools, male	4
Special teachers, male	1
Total	57

Special attention is here called to the apparent changes in our school population for the past six years, as given in the above statistics. The record is taken from past school reports, and represents the number of names returned each year, respectively, by the census enumerators. It may be interesting to examine the statistics a little more closely for the purpose of determining, as nearly as possible, the school population of the town.

In 1886, the number of school children reported by the census-takers was 1,860. The number of pupils in school for the corresponding school year — excluding duplicate enrolments and enrolments of pupils over fifteen and under five — was 1,870. If 50, the estimated number of school children in town who did not attend public schools, were added to this number, it would give the school population for that year 1,920, which is probably very nearly correct. The same test applied to the other years mentioned above will give similar results.

In the fall of 1891, the comparison was made in another way, the census lists were sent to all the teachers with the following request: "Please examine carefully the accompanying School Census and record the names of all pupils in your school whose names do not appear therein." They returned the names of 104 children then in school, between the ages of six and fifteen, inclusive, who were in town the first of last May, but whose names do not appear in the school census. Quite a number of the children whose names were returned are from eleven to fifteen years of age and have lived from two to fifteen years in the same ward. If this number — 104, and 40, the estimated number of school children not attending public schools, were added to the Census returns, it would give the school population for this year, 1911, instead of 1777, the number returned by the census enumerators. This indicates an error in the school census for the year of over 100.

In view of the fact that the census returns are sent to the Board of Education, and printed in the State report, for comparison with other towns in the County and State, it seems desirable that the work should be as accurate as possible. Incorrect school statistics not only reflect upon the efficiency of the school management, but establish a false basis upon which to estimate the cost per pupil for school expenditures.

ATTENDANCE.

It is gratifying to report a general improvement in the attendance of many of our schools. Teachers who give attention to punctuality and regularity do not fail to secure good results. Although indifference on the part of parents may account for many absences and tardinesses, teachers above the primary grades who have poor records must look within for the trouble. If both poles of the magnet are in the school-room, the necessity of a battery at home will be obviated.

It will be seen by the statistics for 1890-'91 that 2,528 instances of tardiness were reported. This number seems very large, but it represents a decided improvement upon the reports of previous years. In June, 1890, the South High School reported 53 tardy marks; in June, 1891, only 15, with 150 for the year; In June, 1890, the Bates Grammar, grades VIII.-IX., reported 62 tardy marks; in June, 1891, only 13, with 234 for the year. It is evident, however, that the limit of improvement, without affecting the attendance, has not yet been reached.

While it is hard to over-estimate the importance of habits of punctuality and regularity, teachers should make careful distinction between unavoidable irregularities and those of a different character. Pupils who, from any cause, are unfortunate enough to be late should never be encouraged or permitted to lose the advantages of the entire session for the sake of a record. The custom, adopted in many places, of printing in the "Year Book" the names of all pupils not absent for the term or year has increased the attendance in those places very perceptibly. The same custom, followed in our town, would undoubtedly increase our per cent of attendance and punctuality. The highest and lowest records for the year 1890-1891 are as follows:—

ATTENDANCE.

HIGHEST.			LOWEST.
Athens, grades VII.-IX. .	97%.	Lincoln, grade I. . . .	78%.
Hunt, grade IX. . . .	96%.	Pratt, grades I.-VI. . . .	82%.
Shaw, grades VII.-IX. .	96%.	Washington, grade I. . . .	82%.

TARDINESS.

HIGHEST.			LOWEST.
Athens, grades V.-VI. .	4 cases.	Bates, grades VIII.-IX.,	234 cases.
Athens, grades VII.-IX.,	5 cases.	South High	150 cases.
Washington, grade IV. .	12 cases.	Hunt, grade V. . . .	149 cases.

TRAINING SCHOOL.

A pertinent question to ask at this time, and one that should receive the careful consideration of your committee, is: Shall Weymouth have a permanently established Training School for the purpose of giving the graduates of our high schools who wish to become teachers, and are unable to attend a normal school, an opportunity to prepare themselves for the important work of the school room? It may be well in this connection, to call attention to the following statement concerning the preparation of the teachers now engaged in our schools.

Thirty-six of the forty lady teachers now in charge of the grades below the high school are residents of the town. Two only of this number are normal graduates, and ten only are graduates of the Training School. Without doubt, a very large proportion of the remaining twenty-four had no special training whatever for the work of teaching before taking charge of a school. Very many of these are now excellent teachers, but they have gained their experience at the expense of our schools. Having no opportunity to become familiar with approved methods of instruction and discipline under the direction of skillful teachers, they were years in securing the professional training that should have been acquired by them before they attempted to mould characters and shape intellects.

It is easy to see by the above figures that resident applicants for positions as teachers, whether they have received any special training or not, generally succeed in getting appointments. As in many other places, "by a sort of unwritten law," residents of the town are supposed to have a "pre-emptive right" to the position of teacher. Although this law has been closely observed in the past, and its observance has given quite general satisfaction, nevertheless it is a great mistake to allow any person to entertain the idea that he has any right to a position in one of our schools. No one has a right to a position in any school; *every school* has an imperative right to the very best teacher that can be secured, in town or out of town, for the money paid. Any other policy than this works a positive injury to the children, to the parents, to the town, and to the State. In securing the services of lower grade teachers as well as high school teachers, and grammar masters, "Free Trade" should be the policy of the school officials. "Other things being

equal" — experience and quality — home markets should be patronized in order to encourage home industries; but when an able and experienced teacher from another place will accept a position in our schools she should be appointed, unless an equally able and experienced teacher can be found at home.

As our small salaries preclude school officers from employing experienced teachers from other places to any great extent, and compel them to depend largely upon our high school graduates for teachers, it seems to me to be the part of wisdom to establish a Training School — one that shall not depend upon the number of applicants, nor in any sense be intermittent. The value of such a school will depend largely upon the interest taken in it by the committee and citizens of the town. If it is allowed to become simply an easy thirty weeks' journey from the high school to a teacher's position, — a journey that all may travel with indifferent safety — its utility would be of a doubtful character; but, if it is made a year of thoughtful study, of careful observation and preparation, — a year of weeding out the indifferent, and those having no natural fitness for the work of teaching, — it would become an important adjunct to our school system. It is evident to any thoughtful person, that all would-be teachers will not make good teachers; some lack teaching power; some lack disciplinary power; some possess traits of character that should never have a place in a school room. Without the training school these would-be teachers become teachers; with the training school, it is possible for school officials, in spite of importuning parents and friends, to shut out many of the incompetent ones, and save the children suffering loss from poor teaching.

I am pleased to say that past graduates of the training school, with few exceptions, have done very commendable work in the positions they have filled. It is safe to say that they generally do as good teaching the first year as they ordinarily would do, without the training, the second or third year.

COURSE OF STUDY.

A thorough revision of the course of study, adopted in 1884 and supplemented in 1887, has been made during the year and parts of the new course have been put into use. As a good course of study is an important factor in the advancement of our schools, much time and thought has been given to its revision;

teachers have given valuable assistance and other courses have been consulted quite generally and drawn upon whenever they contained suggestions especially adapted to our schools. The new course will be found much more complete and suggestive than the old, and for these reasons will be heartily welcomed by our teachers. Although this course should not be considered a fixed quantity, for that would preclude advancement and fail to recognize new educational needs, it should remain practically unchanged long enough for school officers and teachers to learn what its merits and defects are.

The new course for the high school was put into operation last September, and is conceded by all to be a great improvement over the old. The work in English has been given a more important place. It has been strengthened and systematized so that now every pupil receives continuous instruction and drill in the use of English from the beginning to the end of his course. The first year of the English course has been made as distinctively practical as the unity of the school work would permit, and is especially adapted to young men who desire a more complete business education than our grammar schools afford. This change was made to satisfy a popular demand, and will be appreciated by parents who are unable to give their children a complete course in the high school.

By comparing the old course of study in the lower grades with the new course, it will be seen that important changes have been made in history, in language work, in reading and in physiology, and that the work of the schools has been enriched by the introduction of elements of civil government and nature study. If the space given to a report of this kind were sufficient, it would be easy to show how the above changes are expected to increase the efficiency of our schools.

Accompanying the course of study may be found a table giving the approximate number of hours per week to be given to the different subjects. The table is not intended to be "iron-clad." It simply indicates the relative importance that the school officials place upon each subject. It neither gives opportunity to the specialist to unduly enlarge upon his pet subject, nor the careless to neglect an important subject because he is not fond of it. The desultory teacher will find it hard to bring the studies within limits, but the careful, painstaking, orderly teacher will be inspired to crowd the fullest and best information into the prescribed time.

READING.

It is sometimes said that reading is the most difficult branch to teach in the entire course of study. It seems to me that it would be more nearly correct to say that reading is generally the poorest taught subject in the school curriculum. The failure to attain creditable results in reading is due not so much to the difficulty of the subject as to poor teaching of the subject. If teachers would give as much study to this branch of instruction as to other branches, much of the poor reading would be eliminated from our schools. Many teachers who thoroughly prepare themselves for the arithmetic and geography lesson give little or no thought to the reading lesson until the class is called, and then make a hit or miss selection. A very unsatisfactory reading lesson is the result — poor articulation, incorrect expression, and frequent mispronunciation. This method of teaching reading is all wrong. Teachers should prepare themselves for the reading lesson more thoroughly than for any other study; for good reading is the key to all other school work.

First, it is absolutely imperative, if good results are to be attained in reading, that the teacher should be a good reader; not only able to get quickly and accurately the thought from the written or printed page, but to give correct oral expression to that thought. Second, she should be a skillful, constructive critic; should know what good reading is; and, when she hears a pupil read, should know what the defects are and how to correct them. Third, she should be so thoroughly acquainted with every selection in the reading books used in her class that she can decide what selections are best adapted to the needs of her pupils, and how the lesson should be given to improve their reading; whether in articulation, expression, or getting the thought silently. Fourth, she must adapt herself to the reading lesson, however simple, and keep her own and the children's interest at a white heat. No half-hearted effort should be tolerated. Teachers who appreciate the importance of good reading, and the necessity of thorough preparation always secure excellent results in reading. It is a pleasure to listen to a reading lesson conducted by such a teacher.

In addition to the school-room work in the different reading exercises, teachers should have a well defined plan to interest the pupils in outside reading. They should ever keep in mind that

an acquaintance with good literature is the highest object of all reading; and also that it rests with them to shape, in a large degree, the future reading of their pupils. To cultivate this love for good literature is one of their greatest opportunities; yes, one of their gravest responsibilities. It were almost better that the child had never learned to read, than having learned to read, to make companions of bad books. "Bad books corrupt us as bad people do." Ruskin says "Of all the plagues that afflict mortality, the venom of a bad book to weak people, and the charms of a foolish book to simple people, are without question the deadliest."

PROMOTION.

In grades below the High School, quite a radical change has been made during the year in the system of marking pupils for promotion. Although it was suggested in a recent school report that mortals could not well improve upon the method then in use, it seems to me that the change, made by your Board, is fully in accord with the best educational thought of the day. It recognizes the fact that faithful, painstaking study is more valuable than spasmodic, bi-monthly cramming; and also places the promotion of the pupils more directly in the hands of the teachers, thereby securing their more careful study of the peculiarities of each pupil. Possibly the greatest evil of the graded school system is the tendency to work forty or fifty pupils in mass, keeping the smart ones back and dragging the dull ones along. To check this tendency, pupils who are found mentally and physically able to do advanced work should be given an opportunity to secure extra promotion. Care should be taken not to make individual promotions too general, thereby lowering the grade of our schools; but to make such promotions possible and wholly dependent upon individual effort and ability. When teachers fully realize that the thorough study of each pupil is the essence of good teaching, and bright pupils are given a fair chance to win special or double promotion, the work in our schools will be better done and the graded school system will be relieved of much of the criticism that is now justly heaped upon it.

In case of non-promotion, parents and teachers should carefully distinguish between failure to be promoted because of sickness or absence, and failure because of neglect on the part of the child. In

the former case failure is no dishonor, and neither parent nor child should feel it any disgrace that a second year is spent in the same grade. In all cases where non-promotion seems probable parents should be kept informed of the liability of the child's failure to be promoted. If failure is caused by neglect on the part of the child, or by frequent absences, the parents are largely responsible for the failure, and should not complain of the teacher or request promotion on trial.

TEMPERANCE INSTRUCTION.

During the past year temperance instruction has assumed definite shape, and is now recognized as a part of our course of study. Satisfactory books have been furnished for the teachers, and special work laid out for the different grades. No valid excuse can now be rendered for giving an uninteresting, disconnected, intemperate, temperance lesson in any grade. Those interested in the proper teaching of this subject are cordially invited to visit our schools and listen to the instruction given therein.

If after careful observation, it is found that better results can be attained by putting text-books into the hands of the pupils, the school committee will undoubtedly vote to do so. As faithful, painstaking teaching is expected in this study as in any other study of the course. One or more uniform examinations will be given throughout the schools each year for the purpose of ascertaining the amount and value of the instruction given.

MORAL INSTRUCTION.

Although no detailed schedule of the amount of moral instruction to be given in our schools is marked out in the course of study, it is by no means to be understood that such instruction is to be confined to the half-hour a week set down for opening exercises. Indeed, moral training is too important to be confined within narrow limits as other subjects; it is not something apart from history and geography, but something that pervades the whole work of the school. Not a part of the course of study, but the beauty and life of the whole course.

The most vital moral power in our schools is the influence and example of the teacher. Some teachers possess in a very large

degree the enviable faculty of throwing the benign influence of their moral character and training far beyond the limits of the school-room. They are not content with mere obedience on the part of the pupils while in the school-room or school-yard, but are untiring in their efforts to teach politeness, kindness, respect for the rights of others, industry, temperance, self-control, and purity of speech, as virtues to be practised in school and out. The pupils of such teachers can be distinguished in the stores and on the streets by their uniformly good conduct.

The Rules and Regulations of the public schools of Weymouth require that "the morning session shall begin with the reading by the teacher of suitable selections from the Bible, without comment," and recommends that the reading "should be followed by the audible repetition of the Lord's Prayer by the teacher alone or by the teacher and pupils in concert." This exercise, performed in the right spirit, using easy and appropriate selections, can be made a most impressive way of giving moral instruction. Many incidents of school life also are constantly arising that afford most excellent opportunities for moral training. Indeed, the moral tone of the school depends very largely on the use that is made of these opportunities as they occur. This is indirect moral training, but is vastly more effective than constant lecturing or preaching.

If any person is ever called upon to practise what he preaches, and to live what he teaches, that person is the instructor of the American youth. A teacher who tells his pupils that he shall do a certain thing on the following day and neglects to do it for some trivial reason; or makes an appointment with his pupils and breaks it with no apology; or *allows dishonest work to be exhibited and takes, therefor, undue praise to himself and his pupils*, gives a silent lesson that will effectually undo all his preaching about truthfulness, integrity, and uprightness. But a teacher who is frank, courteous, and honest with his pupils, careful in small details, and clearly just in all his dealings, hardly needs to supplement his daily example with words of preaching. Still as opportunities present themselves wherein the influence of the school can be brought to emphasize the worth of true manhood, the spoken word should by no means be neglected.

CONCLUSION.

In conclusion I wish to call the attention of the committee to our utter lack of permanent school appliances.

At the beginning of the present year, there was very little material in our schools that could be called permanent supplies. In fact, below the high schools, the solar camera, with its accompanying curtains and poorly assorted slides; the book-cases used for the transportation of the "library on wheels"; and the wand-holders, constituted the bulk of our permanent school supplies. Model drawing was taught, or attempted, with few or no models to draw from; paper folding and cutting, taught with no suitable paper to fold and nothing to cut with; geography and history, taught without globes or modern wall maps, and without supplementary histories or reference books; and reading (the sentence method), taught with a meagre supply, of material necessary to properly teach reading by this method. Indeed it would be difficult, if not impossible, to find anywhere a system of schools as excellent and *costly* as ours with so few reference books and other permanent school appliances. Our schools have been made what they are in spite of these deficiencies, and there is reason to fear that much of the instruction given is of a transitory character. Pupils taught cut and dried facts from note-books or books that contain the essentials of a study, will make pleasant recitations, but recitations devoid of lasting value. If on the other hand pupils are led to supplement the note-books and text-books by careful study of reference books upon the subjects, and are trained to seek information for themselves from outside sources, their instruction will be not for a day but for life.

I am pleased to report that, by judicious management on the part of your committee during the past year, I have been able to make a beginning toward suppling these deficiencies. Classical atlases, large and small models for drawing, compasses, one cyclopædia, and a few reference books, have been placed in the high schools. The lower grades have been supplied with material necessary for properly teaching the sentence method of reading, with small models for drawing, with paper and scissors for paper folding and cutting, and with a few reference books for the teachers' desks. In addition to these purchases, I think we shall be able this year, *without exceeding the usual amount expended in this department*, to supply many of our schools with wall-maps and possibly to

furnish them with a few globes. If these purchases are made and your committee continue the same wise management of this department in the years to come, our schools will soon be furnished with all the equipments necessary for securing good results.

There are other points that could profitably be discussed in this report, but it is thought that the course of study should be printed this year, as a part of the annual report.

Allow me in closing to thank you, gentlemen of the School Committee, for the kind consideration and appreciation my work has received from you ; and to express my obligation to the teachers for their uniform support and assistance.

Respectfully submitted,

I. M. NORCROSS,
Superintendent of Public Schools.

In Memoriam.

MISS ADDIE COLERAN,

A MEMBER OF THE TRAINING CLASS,

passed away after a short illness,

APRIL 28, 1891.

She was acting as substitute teacher in the Lincoln School, first grade, and gave promise of becoming an excellent teacher.

MISS ELLA CHANDLER,

A TEACHER IN THE FIRST GRADE OF THE LINCOLN SCHOOL,

passed away after a lingering illness,

MAY 1, 1891.

She was a conscientious and successful teacher, beloved by all her pupils and mourned for by a large circle of friends.

APPENDICES.

I. REPORT OF PRINCIPAL OF NORTH HIGH SCHOOL.

To I. M. NORCROSS, *Superintendent of Public Schools.*

The number of pupils at the opening of the school year was one hundred thirteen. This is one less than the total enrolment of last year. During the first half of last year we lost a large number from the third and fourth classes. This year our losses have been few ; we began with forty boys, and that number still remains. While we should be glad to see a larger proportion of boys, the ratio between the sexes in our school compares favorably with that of similiar schools throughout the county.

In the first class there are six young ladies and five young gentlemen. Judging from the number in the lower classes at present, the number at graduation ought not to fall below eighteen for a number of years.

There are twenty-seven pupils pursuing the college preparatory course. Fourteen pupils will be ready in June for either preliminary or final examinations at higher institutions of learning.

In previous reports the need of a change in our course of study has been suggested. That change has come. It is popular with teachers and scholars. How much of an improvement the new is over the old can better be told at the end of the school year than now. It may be fairly inferred that the more permanent attendance of this year is due, in part, to the change. The work of the college preparatory division of the fourth class is far less discouraging than formerly. The practical features of the English course during the same year are a real attraction. But an attractive course of study must not have all of the credit here. The expression on the faces of our new pupils told us that they had come to stay. In the higher classes there seems to be a confidence among the pupils that the new order of things is serving their interests to the best advantage. If preparation for college is sought, it can be accomplished in four years by bright, willing workers. By the same class of pupils good preparation for the Massachusetts Institute of Technology can be accomplished in three years. For all, the study of our own language has been largely increased.

Of necessity the college preparatory course must be a busy one. The requirements for admission to college are broad and must be met, we think, in four years. While there is a difference in the amount of work prescribed in our different courses, that difference is not as great as it seems ; there is work enough to be done in the English course. Lack of ambition may materially diminish the amount accomplished. Pupils of the classical course recite nearly all of their lessons with college preparatory classes. They catch the ambition to do what the preparatory pupils know they must do.

We receive few visits from parents. It is true that on the last day of the year large numbers listen to our exercises, but at that time little can be judged of the work done through the year. Visits should be made frequently to learn how the school is progressing, and to give encouragement to scholars and teachers. Our public day, if come it must, should come at some other time of the year. Into our last day is crowded an amount of work for teachers and graduating class little dreamed of by the casual observer.

We may claim, with modesty, that the year has been a successful one. The scholarship of the school has been improved, and honorable sentiments have been fostered.

Respectfully submitted,

L. HERBERT OWEN,
Principal.

CLASS ODE.

WORDS BY MARY E. SPENCER, MUSIC BY M. NELLIE HART.

Four times now have bloomed the flowers,
 Since as classmates first we met,
 And to those bright, happy hours
 Owe we all a lasting debt.
 Comes at length the time for parting,
 Sad, but sorrow must not be,
 For to-night we all are starting
 On life's mystic, untried sea.

CHORUS.

"Join the tender chorus.
 Though we part to-night,
 God, who reigneth o'er us,
 Still shall guide us right."

Then arise and sing for gladness,
 Sing of victories to be won,
 Banish every thought of sadness,
 Think of life's work, just begun.
 All press on, though we must sever,
 With our Purpose clear in view,
 To achieve each high endeavor,
 To do all that we can do.

II. REPORT OF PRINCIPAL OF SOUTH HIGH SCHOOL.

To I. M. NORCROSS, Esq., *Superintendent of Schools* :

In accordance with established usage, I submit my report of the condition of the South High School.

In the school year 1890-91 the enrolment of this school reached high water mark in the increase which had been steadily going on since 1881, as shown by the following schedule :

Year	'81,	'82,	'83,	'84,	'85,	'86,	'87,	'88,	'89,	'90.
Membership	44,	47,	50,	51,	55,	57,	60,	65,	82,	93.

The total number belonging for the present year is only 72, showing a decrease for the first time in ten years. The average membership, however, for the past five years, since the effect of the free text-book law has been felt, has been almost exactly 72, the present enrolment.

The cause of the abnormally large membership for the years '89 and '90 was the extraordinary ratio between the numbers of the graduating and the entering classes, viz.: 11 to 39 in '89 and 5 to 31 in '90, a gain of 54 !

Last year, on the other hand, the graduating class was seventeen in number, the largest in the history of the school, and the entering class was twenty-five which is below the average for recent years. Present statistics indicate a gain of, perhaps, six or eight for the coming year.

The present course of study, which went into effect last September, presents some marked improvements on its predecessor, especially in the increased attention it gives to the study of the English language and literature. The addition of commercial arithmetic and commercial law to the study of book-keeping makes it possible for a pupil to obtain, *free of expense*, essentially what is taught in the so-called business colleges. I would recommend that the study of stenography and typewriting be added to the requirements of this "business course," following the example of leading high schools in the State, and thus giving advantages to those intending to follow commercial pursuits more nearly equal to the advantages afforded those fitting for professional life.

The boys have adopted a uniform cap, marked with the initials of the name of the school, and have presented a petition to the school committee that military drill may be added to the course of instruction. Should this request be granted, I anticipate that it would have a beneficial effect, not only physically, in giving a more erect and manly bearing, not only in improving the discipline of the school, but also in making school-life more attractive to many boys, who now too soon fall out of the ranks to engage in some more immediately remunerative occupation.

The introduction of modern heating and ventilating apparatus has greatly improved the conditions for successful work, both by teachers and pupils.

No opportunity is given, however, for effective supervision by the principal, or for laboratory work, while the number of teachers is the same as the number of rooms constantly occupied by pupils for study. If there are two rooms thus employed there should be three teachers ; if three rooms, four teachers.

For years previous to the revision of the course of study in 1887, this school did not fit pupils for higher institutions of learning. Its graduates were obliged

to spend a year in further preparatory work elsewhere. Since 1887 four of our graduates have successfully passed the entrance examinations—one at the Massachusetts Institute of Technology, two at Boston University and one at Smith College — and no graduate of our college preparatory course has failed to pass such examinations.

This year, for the first time since 1887, no member of any of the three upper classes is taking the college preparatory course ; consequently the classes in Greek have disappeared from our order of exercises. But in the entering class nine have signified their intention of fitting for college, more than in all the past five years together.

I am glad to be able to commend the general diligence in work and the attainment made by pupils in all classes and courses in the school. Though we realize the ever unsatisfactory relation between things attempted and things accomplished in education, even under the most favorable circumstances, yet we teach, and, we trust, pupils are learning, "not for school but for life."

EDGAR R. DOWNS,
Principal.

-----------------	----------------	-----------------	----------------

Four bright years we've worked together,
Toward this end so sure to come,
Striving ever onward, upward,
In the school and in the home.
While the pathway stretched before us,
Long the years of study hard !
Brief, to-night, they lie behind us,
Ours at last their full reward.

We must bravely meet the future,
Faithfully our work must do ;
Thus successfully achievement
Crowns our efforts pure and true,
If each hour we but remember
That our thoughts and words and deeds,
What we are in life's stern conflict,
This alone the Master heeds.

III. REPORT OF INSTRUCTOR IN MUSIC.

MR. I. M. NORCROSS, *Superintendent of Schools* :

In reviewing the work of the past year, I take pleasure in saying that, with the help of the corps of faithful, conscientious teachers which the town is fortunate in possessing, the study of music has steadily progressed, and shows a marked improvement over the work of last year. The improvements may be seen in the following respects : —

- Increased ability of the pupils to read new music at sight.
- A better understanding of the various kinds of time.

A more tasteful style of performance, and in many other ways.

Special attention has been given to time-beating, with time-names, as used in the *National Music Course*, and thoroughness has been aimed at in all things pertaining to the study of singing.

In regard to the question of discipline, I must repeat the remark made in my last report :

Good singing is impossible in schools where good discipline is not maintained.

The results of the constant study of music in the schools may be seen in our Sunday Schools, in our church choirs, in the various entertainments which are constantly being given, and on all occasions where the pupils take part in the singing. These good results will be more and more evident as the years pass.

ROBERT F. RAYMOND,
Supervisor of Music.

X. SCHOOL CALENDAR, 1891-92.

FALL TERM.

Monday, Sept. 14, 1891. — Schools open.

Recess. — Friday of Weymouth Agricultural Fair week.

Oct. 28, 29, and 30. — Public visitation of schools.

Recess. — Thursday and Friday of Thanksgiving week.

Dec. 22, 23, and 24. — Public visitation of schools.

Dec. 24. — Schools close, — vacation of one week.

WINTER TERM.

Monday, Jan. 4 — Schools open.

Feb. 17, 18, and 19. — Public visitation of schools.

Holiday. — Washington's Birthday.

Friday, April 1. — Schools close, — vacation of one week.

SUMMER TERM.

Monday, April 11. — Schools open.

May 24, 25, 26, and 27. — Public visitation of schools.

Holiday. — Memorial Day.

Holiday. — June 17.

June 29 and 30, and July 1. — Examination and visitation of schools.

Wednesday, June 29. — Graduating exercises of Athens, at 7.30 P. M.

Thursday, June 30. — At 7.45 P. M. exercises of Graduating Class of South High.

Friday, July 1. — At 7.45 P. M. exercises of Graduating Class of North High.

Vacation. — Till Monday, Sept. 12, 1892.

XI SCHOOL COMMITTEE, 1891-92.

Regular meetings, the second Tuesday evening of each month, except July and August, at 7.30.

	MEMBERS.	RESIDENCE.	TERM EXPIRES.
Ward One,	WM. A. DRAKE,	North Weymouth.	1894
“ Two,	JOS. A. CUSHING,	East Weymouth.	1893
“ Three,	AUG. J. RICHARDS,	Weymouth.	1892
“ Four,	BRADFORD HAWES,	East Weymouth.	1894
“ Five,	HENRY A. THOMAS,	South Weymouth.	1892
At Large,	JAMES H. FLINT,	Weymouth.	1893

Chairman. — Dr. WILLIAM A. DRAKE, North Weymouth.

Secretary of the Board. — JOSEPH A. CUSHING, East Weymouth.

Committee on Teachers. — Dr. WM. A. DRAKE, HENRY A. THOMAS, BRADFORD HAWES.

Committee on Text-Books. — JAMES H. FLINT, BRADFORD HAWES.

Committee on Supplies. — JOSEPH A. CUSHING, HENRY A. THOMAS.

SUPERINTENDENT OF SCHOOLS.

I. M. NORCROSS.

OFFICE HOURS OF SUPERINTENDENT.

At South High School, on Tuesdays.

At North High School on Thursdays.

At Residence, 134 Broad Street, East Weymouth, on Wednesdays.

Post-office, Weymouth Centre, from 4 to 4.45 each school-day for the school-year.

TRUANT OFFICERS.

NOBLE MORSE, Ward One. THOMAS FITZGERALD, Ward Three.
 ASA B. PRATT, “ Two. GEORGE B. BARLEY, “ Four.
 ANDREW J. GAREY, “ Two. GEORGE F. MAYNARD, “ Four.
 GEORGE W. CONANT, Ward Five.

COURSE OF STUDY
IN THE
PUBLIC SCHOOLS
OF
WEYMOUTH, MASS.

APPROVED FEBRUARY, 1892.

COURSE OF STUDY.

MORAL TRAINING.

· OPENING EXERCISES. (¼ hour a week.)

NOTE 1. Teachers are directed to give instruction for a few moments in good manners and good morals at the opening of school in the morning and at other favorable opportunities. The teacher owes it to her pupils to give such instruction in this subject as will tend to make them good men and women. She should, by regular lessons, and by lessons as occasions demand, strive to awaken the moral sense of each pupil and lead him to distinguish right from wrong; should teach punctuality and habits of order as well as proper behavior, at home, at the table, at school, in church, on the street, and in all other public places. She should impress upon her pupils the importance of faithfulness in the discharge of all duties; should show them that individuals have obligations to those with whom they associate; that patriotism, industry, fidelity, and public spirit are necessary to ensure the prosperity of our country; and that the duties and responsibilities of nations are similar to those of individuals.

NOTE 2. "It shall be the duty . . . of all preceptors and teachers of academies, and all other instructors of youth, to exert their best endeavors to impress on the minds of children and youth committed to their care and instruction, the principles of piety and justice and a sacred regard to truth; love of their country, humanity, and universal benevolence; sobriety, industry, frugality; chastity, moderation, and temperance; and those other virtues which are the ornament of human society, and the basis upon which a republican constitution is founded; and it shall be the duty of such instructors to endeavor to lead their pupils, as their ages and capacities will admit, into a clear understanding of the tendency of the above-mentioned virtues, to preserve and perfect a republican constitution and secure the blessings of liberty, as well as to promote their future happiness; and also to point out to them the evil tendency of the opposite vices." — *General Statutes of the State of Massachusetts, Chap. 38, Sect. 10.*

PHYSICAL TRAINING AND RECESSES.

GRADES I., II., III. RECESSES, 2 HOURS A WEEK. PHYSICAL TRAINING, 1 HOUR A WEEK.

GRAMMAR GRADES.

RECESSES, $1\frac{1}{4}$ HOURS A WEEK. PHYSICAL TRAINING, $\frac{1}{2}$ HOUR A WEEK.

The time set apart for recesses and physical training should be so used as to meet the physical needs of the pupils. At recess time pupils should withdraw from the room for recreation and in order that the room may be ventilated. If for any reason recesses are shortened or omitted, the time must be given to physical training, *and in no case to be taken from the end of the session.*

RECITATIONS.

Every school should have an established order of exercises so that teacher and pupils may know what lesson is coming and prepare for the same. It would be well to have such a programme posted up in the schoolroom. The length of a recitation should vary, according to the age of the pupils, from fifteen minutes to forty-five minutes, and the exercises should not continue without the attention of every pupil.

The following table is given to show the approximate number of hours per week that are believed to be due the respective studies: —

GRADES.	Opening Exercises.	Recesses.	Physical Training.	Reading.	Language.	Geography.	Observation Lessons.	Arithmetic.	Book-keeping.	Music.	Drawing.	Writing.	Spelling.	History.	Civil Government.	Physiology and Hygiene and Miscellaneous.	Hours.

OBSERVATION LESSONS.

FIRST GRADE. (1½ hours a week.)

Simple conversational lessons on:

1. **ANIMALS.** — A few domestic animals, common birds and insects. (a) To recognize and name; (b) single qualities; (c) doings and other interesting facts.

2. **PLANTS.** — Common plants, flowers, fruits. (a) To recognize and name; (b) single qualities as color, form, and uses; (c) where found and how to keep them.

3. **THE HUMAN BODY.** (a) The whole body, care, health, cleanliness, comfort; (b) noticeable parts.

4. **COLOR.** — Standards in paper, and in nature.

5. **CLAY.** — Modeling of typical forms in nature, and “forms of life”; paper folding, stick laying. Sewing in free outline should be taken in connection with drawing.

6. **PROMINENT QUALITIES OF OBJECTS.** — Rough, smooth; sweet, sour; brittle, tough; and the like.

7. **FAMILIAR OBJECTS.** — The stove, the house, the bed, the garden, food, clothing.

SECOND GRADE. (1½ hours a week.)

Continue simple conversational lessons on:

1. **ANIMALS.** — Domestic and other common animals, birds, insects. (a) To recognize and name; (b) distinguishing characteristics; (c) habits; (d) uses and interesting facts.

2. **PLANTS.** — Common plants, a few trees and shrubs. (a) To recognize and name; (b) value or uses; (c) interesting facts as to cultivation, place and manner of growth. In the proper month collect specimens of seeds, buds, leaves, flowers, fruits.

3. **HUMAN BODY.** — (a) The whole body, care, cleanliness, comfort, health; (b) uses and care of different parts. (c) Effects of alcohol and narcotics as outlined in book given to this grade.

NOTE. The teachers in all grades should find out any defects in the children's eyesight or hearing and act accordingly.

4. **COLOR.** — Standard, with tints and shades.

5. **FAMILIAR OBJECTS.** — Continued and enlarged upon.

THIRD GRADE. (1½ hours a week.)

Continue lessons on:

1. ANIMALS. — Quadrupeds, birds, insects, fishes. (a) Comparison of animals; (b) usefulness, homes; (c) teach kindness to animals; (d) collect, pictures and stories.
2. PLANTS. Trees, shrubs, vines. (a) Where and how grow and uses; (b) in proper months study planting, growth, care, harvesting; (c) collect samples of flowers, leaves; press, mount and preserve them.
3. HUMAN BODY. — (a) Study as in previous grades; (b) foods and drink, work and play; (c) effects of alcohol as outlined in book given to this grade.
4. NATURAL PHENOMENA. — Sun, light, heat, fire, cold, darkness, air, wind, day, night, rain snow, ice.
5. COLOR. — Review color, teach harmony and contrast, colors of rainbow.
6. Continue study of familiar objects.

FOURTH GRADE (1½ hours a week.)

1. ANIMALS. — Continue the study of quadrupeds, bipeds, birds, insects, fishes. (a) Comparison, usefulness, homes, and habits; (b) teach care of animals and kindness to them, collect pictures of animals; (c) read interesting stories.
2. PLANTS. — Trees, shrubs, vines, flowers, fruits, vegetables. (a) How and where they grow; (b) uses; (c) study growth, care, etc.; cultivate plants in the school-room and yards; (d) study parts of trees, flowers, etc.; (e) collect and mount specimens.
3. HUMAN BODY. — (a) As a whole as in previous grades; (b) the organs of sense, the eyes, the ears, the nose, the mouth; position, use, and parts; hygiene of the sense-organs. Teach the effects of alcohol, etc., as outlined by the book given to this grade.
4. NATURAL PHENOMENA. — Sun, moon, air, wind, clouds, steam, rain, hail, snow; (b) observe the changes in forms of water; (c) effects of heat and cold.
5. COLOR. — Continuation of previous work. (a) From nature, plants, flowers, and fruits.
6. LANGUAGE. — (a) In each grade, describe all objects and pictures studied, with careful use of names and terms; (b) tell and write stories relating to objects studied; (c) recite memory gems.

Note: Encourage free questions and conversation in all grades.

FIFTH GRADE. (1½ hours a week.)

1. ANIMALS — (a) Group animals according to their resemblances, as flesh or grass eaters, gnawers, birds of prey, birds that swim; (b) stories about animals, and description of animals.

2. PLANTS. — Continue observing and naming vines, flowers, fruit, and grains; how and where they grow; their uses and value; parts of plants, as roots, branch, buds, flowers, fruits, seeds, etc.; (b) compare leaves as to shape, size, veins, color. Collect and mount specimens.

3. HUMAN BODY. — Impress the importance of correct habits, proper food and drink, play and work, cleanliness, clothing, manners, pure air, proper sanitary conditions. (b) Teach the value of physical training, and the effect of education upon the mind; (c) teach bones shape of bones, life of bones, how broken bones are mended, the skull, the trunk, upper and lower limbs ;(d) teach the effect of alcohol, etc., as outlined by the book given to this grade.

4. FORM AND COLOR. — Continue work of previous grades; (b) observe forms and colors in nature and in articles made by man; as furniture, fabrics, etc.; (c) harmony of form and color.

5. LANGUAGE. — Oral and written. (a) Correct spelling of names and terms used; (b) description of all objects studied; (c) reproduction of stories.

SIXTH GRADE. (1 hour a week.)

1. ANIMALS. — Continue the subjects of previous grades; (a) closer observation of the habits of animals; (b) observe the adaptability of the parts to the animal's needs, as the teeth of the flesh-eaters, webbed feet for swimming; (c) lessons of kindness.

2. PLANTS. — (a) Parts of plants used for food; (b) careful study of food plants; (c) food plants in our markets; (d) effect of climate on plants; (e) collection of common woods.

3. HUMAN BODY. — (a) The bones, the skull, the spine, the ribs, the shoulder blades, the collar bones; their position, shape and use; hygiene of bones; (b) different muscles and their uses; kinds of food; (c) Effects of alcohol, etc., as outlined by the book given to this grade

4. LANGUAGE.—As in previous grades.

SEVENTH GRADE. (1 hour a week.)

1. ANIMALS. — (a) Study about the distribution of animals in the several zones; (b) habits, uses and values.

2. PLANTS. — (a) Study distribution of plants; (b) collect and label specimens of plants, fruits and grains; (c) productions of our own and other countries.

3. HUMAN BODY. — (a) The muscles of the head, the trunk, the limbs; uses of the muscles; (b) the skin, its position, qualities and uses; hygiene of the skin; (c) digestive organs; stomach; its position, shape, process of digestion, hygiene of digestive organs; (d) nervous system and special senses; (e) effects of alcohol, etc., as outlined in book for this grade.

4. MINERALS. — (a) Collect, recognize and name typical minerals, metals and rocks; note their qualities and uses; (b) collect samples of earth from hills, level country and valleys, and discuss the fertility of each.

EIGHTH GRADE. ($\frac{1}{2}$ hour a week.)

1. ANIMALS. — (a) Geographical distribution of fishes, birds, mammals; (b) locate principal animals that furnish material for clothing; (c) examine typical forms of the animal life in the sea; sponges, corals, shell-fish; (d) collect, name and locate shells.

2. PLANTS. — Distribution of plants; (a) effects of climate on vegetation; great forests. (b) plant products, as gum, spices, foreign fruits, material for clothing; (c) collect woods used in manufacturing, study their qualities and values.

3. MINERALS. — (a) Collect minerals and metals used in the arts; (b) their distribution; (c) their manufacture into cooking utensils, etc.; (d) values.

NINTH GRADE. ($\frac{1}{2}$ hour a week.)

1. ANIMALS. — (a) Collect animal products, as wool, leather, fur, feathers, ivory, honey, wax, glue, etc.; (b) their sources, manufacture, qualities and uses.

2. PLANTS. — (a) Collect and label woods used in manufacturing; (b) their qualities and values, uses and distribution.

3. MINERALS. — Review and extend the work of preceding grades.

READING.

GENERAL REMARKS.

Good reading is the key to good scholarship. Poor reading, — i e., inability to get the thought of the author, — is the cause of much of the poor work done in all the other studies pursued in the public schools. One of the most essential qualifications of the good teacher of reading is the power to enter with enthusiasm into the spirit of the selection read. It is possible for the enthusiastic teacher to so clothe an exercise in reading with interest that the author's meaning will be reflected in the pupils' faces, and clearly portrayed by their emphasis

and inflection. There should be no merely mechanical reading. The mind should take in the thought and the reading should express that thought. Silent reading of passages — the result to be tested by oral or written reproduction — will be found a valuable exercise. The attention of the whole class *must* be concentrated upon every exercise. The greater the interest, the surer and more lasting the result.

In the higher grades the selections for class use should be worth studying, and should create an interest in the works from which they are taken. The right use of these selections, and the supplementary books given to these grades, will cultivate a taste for good literature, and encourage the pupils to read other works of standard authors.

FIRST GRADE. (10 hours a week.)

1. The blackboard to be used exclusively till the pupils have a vocabulary of two or three hundred common words that they can read promptly at sight. (See printed list.)

2. Write on the blackboard a list of the words studied, adding to it new words from day to day. Make these words the subject of frequent review.

3. Reading from books of the grade of Primers and the first half of First Readers. New words developed from the blackboard.

Note: For instruction in reading, in this and the four following grades, the classes should be divided into three or more sections, and each section should be taught separately.

SECOND GRADE. (10 hours a week.)

1. Reading from books of the grade of the last half of First Readers and the first half of Second Readers.

2. New words in a lesson to be written on the blackboard and studied till the pupils can call them readily at sight. Pupils in this grade should never be allowed to read a lesson till this preliminary work is thoroughly done. Lessons should contain not more than three or four new words.

3. Require correct pronunciation. Words often mispronounced should be written on the blackboard and made the subjects of frequent review.

4. Phonic drill on the elementary sounds of the vowels, separately and in combination with consonants, the purpose being to develop the vocal organs, secure distinct articulation, and furnish a key to the pronunciation of new words.

5. Simple selections to be learned and recited.

THIRD GRADE. (10 hours a week.)

1. Reading from books of the grade of the last half of Second Readers and first half of easy Third Readers.
2. Cultivate distinct tones and natural expression, avoiding loud and sharp, as well as indistinct, utterances.
3. Selections to be read occasionally by the teacher to serve as models of good reading.
4. Observe and explain abbreviations and contractions that occur in the reading lesson; also explain the use of quotation marks, the hyphen, and the apostrophe.
5. Phonic drill, as in the second grade.
6. Require the pupils to reproduce in their own language the substance of what they read.
7. Appropriate selections to be learned and recited.

FOURTH GRADE. (8 hours a week.)

1. Reading from books of the grade of the first half of Third Readers; it is good practice also to occasionally read from Second Readers, the purpose being to review words already learned, to create a lively interest on the part of the pupils, and give them a wider range of thought.
2. Observe and explain contractions and abbreviations that occur in the reading lesson, as suggested in the third grade.
3. Phonic drill and other exercises to secure the right use of the organs of speech.
4. The aim in all reading lessons should be to secure a full comprehension of the thought, distinct articulation, correct pronunciation, fluency of speech and natural expression.

NOTE. In this and succeeding grades, paragraphs and selections should be occasionally read by the teacher to serve as models of good reading.

FIFTH GRADE. (8 hours a week.)

1. Reading from books of the grade of a Third Reader.
2. Supplementary reading from historical, geographical and information readers should be given, the purpose being to aid in the instruction of language, elementary science, and history, and to cultivate in the pupils a taste for wholesome reading.
3. All the exercises of the lower grades to be continued in this and succeeding grades.

SIXTH GRADE.

(6 hours a week.)

1. Drill reading from books of the grade of an easy Fourth Reader.
2. Supplementary reading from books for this grade.

NOTE. In this and following grades the classes should be divided into two sections, and each section should be taught separately.

SEVENTH GRADE.

(5½ hours a week.)

1. Drill reading from books of the grade of a Fourth Reader.
2. Supplementary reading from books given to the grade.

EIGHTH GRADE.

(4½ hours a week.)

1. Drill reading from books of the grade of an Advanced Fourth Reader.
2. Supplementary reading from books given to this grade.

NINTH GRADE.

(3 hours a week.)

1. Drill reading from books of the grade of a Fifth Reader.
2. Supplementary reading from books given to this grade.

LANGUAGE.

FIRST GRADE.

(1 hour a week.)

1. Familiar conversations about pictures, objects in the school-room, animals, plants, fruits, games, toys, and other things in which the children are interested, the purpose being to make the acquaintance and gain the confidence of the pupils, and to develop their powers of observation and imagination.

2. Lead the pupils to talk freely, to use simple language, and to express their thoughts in complete sentences, the purpose being to cultivate the habit of correct speech.

3. Little should be attempted in written language beyond copying easy sentences from the blackboard and from dictation.

SECOND GRADE.

(1 hour a week.)

1. Continue as in the first grade, the work being first oral and then written.

2. Simple thoughts suggested by pictures, or by places that the pupils have visited. No pupil should be called upon to say anything until he has a clear idea of what he is to say.

3. Lead the pupils to observe the uses of familiar objects, and to state in correct language what they have observed.

4. Pupils to reproduce short stories told or read to them by the teacher.

5. Oral and written sentences containing words from the reading lesson, and the names of places, persons, and the days of the week.

6. Form sentences from words placed promiscuously on the board; fill blanks in sentences taken from the reading lessons.

7. The correct use of I and me; is and are; capitals for names of persons, places, and the days of the week; question mark and period.

8. A few common abbreviations, using them in sentences; correct use and orthography of son, sun; be, bee; red, read; to, too, two; see sea; by, buy; and similar common words.

Require correct spelling in written work, using only those words that the pupils have learned to spell.

THIRD GRADE. (1 hour a week.)

1. ORAL AND WRITTEN EXERCISES. — Continue the work of the first and second grades; work should be first oral and then written.

2. Write sentences containing the new words in the reading lessons; describe simple pictures and familiar objects, after making them the subject of conversation.

3. Reproduce observation lessons, stories told or read by the teacher, stories read silently by the pupils, and the reading lessons.

4. Sentences containing the names of the months, of the legal holidays, of the seasons. Those containing the name of our town, the names of the cities and towns bordering on it, the names and locations of schools, and the names of the streets.

5. The correct use and orthography of this, that; saw, seen; did, done; no, know; right, write; sent, cent; ate, eight; four, fore; bow, bough; dear, deer; and similar easy words.

6. Continue the study of common abbreviations; exercises in filling blanks in sentences; constant drill on whatever is likely to be used incorrectly.

FOURTH GRADE. (2 hours a week.)

1. Continue the essential work of the preceding grades.

2. Synonymes of words in the reading and spelling lessons, the purpose being to enlarge the pupil's vocabulary; common contractions, using them in sentences; particular attention to be given to the use of capitals, the period, and the apostrophe.

3. Correct use of is, are, was, were, has, have; how to write the names of cities and streets, initials, the words uncle and aunt, Mr. and Mrs., and dates.

4. Give careful attention to letter writing, picture stories, quotations, etc.

5. Carefully selected memory gems to be given in all the grades.
6. Practical Lessons in the use of English, by Mary F. Hyde, First Book to Part Second.

Note: In this and the following grades, memory gems and special dictation exercises should be written with great care in blank books provided for that purpose.

FIFTH GRADE. (2 hours a week.)

1. Review the essential work of the preceding grades.
2. Continue the reproduction of stories, description of pictures or other objects placed before the pupils, places familiar to the pupils; also real and imaginary journeys.
3. Write short letters on familiar subjects selected by the teacher or the pupils.
4. Synonymes of words in the reading and spelling lessons; correct use of bread, bred; led, lead; sale, sail; our, hour; etc.
5. Division of words into classes; construction of sentences containing the parts of speech taught.
6. Subdivisions of the parts of speech; changes in the forms of words, as in nouns to express number, etc.
7. Exercises in combining two or more statements in one simple sentence.
8. Complete First Book, Practical Lessons in the use of English.

SIXTH GRADE. (4 hours a week.)

1. Letter-writing continued: letters descriptive of persons and places, and letters of friendship.
2. Correct use of rap, wrap; due, dew; seem, seam; and similar words.
3. Subdivisions of the parts of speech: nouns — common and proper; verbs — transitive and intransitive, etc. Changes in the forms of words; in nouns, to express number; in personal pronouns, to express number, gender, person, case; in verbs to express present and past time.
4. Correct pronunciation and use of words frequently mispronounced and mis-used. Compound words. A few roots, prefixes, and suffixes.
5. Exercises in combining statements by means of a conjunction.
6. Recitations of choice selections in prose and poetry.
7. Hyde's Second Language Book to lesson LVII., and from page 187 to 203.

SEVENTH GRADE. (4½ hours a week.)

1. Oral and written reproduction of stories, fables, and brief biographies. Description of imaginary journeys and voyages.

2. Letter writing continued; business letters, bills, notes, advertisements for articles lost, for help, for situations; notices for public meetings, telegraphic despatches; invitations.

3. Synthesis of simple sentences. (*a*) The simple subject and predicate; (*b*) enlarge the subject by the use of adjectives, nouns in the possessive case, nouns in apposition, and adjective phrases; (*c*) enlarge the predicate, by the use of adverbs and adverbial phrases; (*d*) enlarge the object by the use of adjectives and adjective phrases.

4. Analysis of the simple sentence, naming the simple subject and predicate; the modifiers of the subject and predicate, the complete subject and predicate, the connectives and the independent words.

5. Recitations of choice selections in prose and poetry.

6. Complete and review Hyde's Second Language Book.

EIGHTH GRADE. (4 hours a week.)

1. Oral and written reproduction of stories, brief biographies, and historical incidents.

2. Continue letter writing as in seventh grade.

3. Abstracts of current events, the purpose being to interest the pupils in the reading of the newspaper and the magazine.

4. Analysis of words; synthesis of words, using common roots, prefixes, and suffixes.

5. Classification and forms of words reviewed and extended. Careful study of *phrases* and *clauses*; changes of words, phrases and clauses from one form to another.

6. Synthesis and analysis of complex and compound sentences; uses of words in sentences.

7. Recitations of choice selections in prose and poetry.

8. Complete and review Hyde's Second Language Book with Supplement.

NINTH GRADE. (3 hours a week.)

1. Study simple, complex and compound sentences; review of all the parts of speech, with careful study of the properties and inflections of words; principles of syntax; punctuation; synthesis; analysis.

2. Reproduction of such supplementary reading matter as may be used; narratives; descriptions of real or imaginary objects, scenes and experiences; oral and written exercises on carefully studied poems; paraphrasing; business letters, notes of invitation, of application, etc., also letter writing on historical, geographical, and other subjects.

3. Synonyms, homonyms, paragraphing; exercises in correcting false syntax.

4. Recitations of choice selections in prose and poetry.

5. Careful use of grammars supplied for this grade.

GEOGRAPHY.

FIRST GRADE. (1 hour a week.)

1. Relative position of objects as expressed by under, on, before, behind, above, right, left, between, inside, outside, and similar words.
2. Relative position of objects in the school-room.
3. Representation of the position of objects in the school-room on the blackboard, the pupils copying the same on their slates.
4. The cardinal points of compass: north, south, east, west. Direction of objects and places relative to the school-house.

SECOND GRADE. (1 hour a week.)

1. Review cardinal points of the compass; also relative position and direction of objects and places.
2. Semi-cardinal points of the compass: northeast, southwest, northwest, southeast. Horizon.
3. Map of the school-room and map of the playground to be drawn on the blackboard and slates.
4. Relative distances of objects in the school-room from each other. Measurements and representations of distances on blackboards.

THIRD GRADE. (1 hour a week.)

1. Review relative position, direction, and distance of objects and things, drawing map of the same on board, slate and paper.
2. Make a map of the school-house and vicinity, locating the homes of the pupils, railroad station, stores, and all points of interest.
3. Lead the pupils to describe the different localities and their direction and distance from other points; the uses of the streams and ponds; uses of streets, railroads, bridges; uses of articles manufactured in mills, shops and factories.
4. Familiar talks in regard to the geography of the vicinity of Weymouth. Hills, valleys, meadows, plains, right and left banks of streams, coast, shore, beach. Modeling in sand, forms and surfaces observed.
5. The purpose of these lessons is to give the pupils good conceptions of home and its vicinity, and to enable them to conceive of other places similar in kind but on a larger scale.
6. The earth as a whole: its shape, the hemispheres, continents, grand divisions, oceans, the large islands, peninsulars, capes, gulfs, etc.; relative position and size of continents and oceans; position,

climate (hot, cold), form, outline, surroundings, largest rivers, lakes, mountains, most important countries and productions of the continents. Modeling forms as studied. Define geography.

FOURTH GRADE. (2 hours a week.)

1. Study of globes and maps; to develop the size of the earth, its shape and daily motion; definitions of the different forms of land and water; the position and climate at the equator, poles and tropics.

2. Study climate of the continents as determined by their position relative to the equator and poles.

3. Review the study of each continent according to the following scheme: (a) Shape and outline. (b) Position and climate. (c) Mountains and rivers. (d) Islands, peninsulars and capes. (e) Seas, gulfs and bays. (f) Straits and isthmuses.

4. The pupils to sketch on the blackboard and paper or slate, an outline map of each continent, adding the details each day as they are learned. The descriptive portions of the text-book should be carefully read, and the leading facts reviewed in connection with the map study.

5. United States. Size, surface, soil, climate, productions, river systems, lakes, surrounding waters, projections, islands, interesting places and cities. Point out and name the States and Territories. Give capital, largest city, and general characteristics of many of the States. Locate and describe prominent cities, as Washington, Brooklyn, etc., also cities of Massachusetts.

FIFTH GRADE. (2 hours a week.)

1. Study of the principal countries of each continent, the continents to be taken in the following order: Europe, Asia, Africa, South America, North America.

2. Study each country according to the following scheme: (a) Position and climate. (b) Shape, outline, boundaries. (c) Comparative size. (d) Mountains, rivers, and lakes. (e) Capes, peninsulars, islands. (f) Seas, gulfs, bays. (g) Isthmuses, straits. (h) Chief productions, animals. (i) Inhabitants, occupations, manners, customs. (j) Chief cities, noted places, historical facts.

3. Progressive map sketching as in the fourth grade.

NOTE. — The work in this and preceding grades must be accomplished chiefly by oral instruction. *Note-books do more harm than good.* The work may be facilitated, however, by placing in the hands of the pupils a suitable text-book on geography after the lesson has been given orally by the teacher; but in no case should the pupils below the sixth grade be required to study a lesson in a book before the subject

of it has been presented orally by the teacher. Teachers' talks, pictures, and books treating on geographical subjects, are necessary to clothe the study with life and interest.

SIXTH GRADE. (4 hours a week.)

1. Study the earth as a globe. Simple illustrations and statements with reference to form, size, meridians, and parallels, with their uses; earth's motions, and their effects; zones; climate as affecting the life of man (occupations, manners, and customs.)

2. The United States in detail, and special geography of New England.

3. Study sections rather than States. The following scheme is suggested for the study of a section: (a) Position and boundaries, States comprising the group. (b) Coast; rugged, low. (c) Surface; mountains, slopes, plains. (d) Drainage; river systems, uses of rivers, full description of important ones. (e) Climate. (f) Productions; vegetable, including forest products; animal, domestic and wild, mineral products. (g) Chief industries in detail; commercial routes. (h) Cities and towns, capitals, description of important cities, location of other places of note. (i) Special lessons upon such topics as the mountain scenery of New Hampshire, the coal fields of Pennsylvania, the cotton plantations of the South.

4. Pupils should learn to discriminate between important and unimportant facts.

5. Progressive maps of the several sections should be drawn upon the blackboard, slate and paper, whenever the class is engaged in studying them.

SEVENTH GRADE. (4 hours a week.)

1. Europe, Asia, Africa, Oceania, Arctic regions. Countries to be studied according to the scheme presented in the fifth grade, but much more closely, taking imports, exports, etc.

2. Mathematical geography, and the geography of Massachusetts should be kept thoroughly reviewed.

3. Unimportant details should be merely read over. Progressive, rapid map drawing is imperative in this grade, if good results are secured.

EIGHTH GRADE. (4 hours a week.)

1. British America, Mexico and Central America, South America, West Indies and British Isles.

2. Mathematical geography, and the geography of New England kept thoroughly reviewed.

3. Comparative physical geography. The continents, islands, mountains, plateaus, and plains to be compared with each other as to form, size, etc. Uses of mountains, lakes, oceans, rivers, forests. Formation of glaciers and icebergs.

4. Outline and relief map drawing.

NINTH GRADE. (½ year, 4 hours a week.)

1. General review of mathematical and physical geography.

2. Industrial and commercial geography of the United States. Leading industries and their chief places; most important products, their distribution and uses. Foreign commerce, and the means by which it is carried on. The principal exports and the countries to which they are sent. Principal imports and the countries from which they are brought. Chief inland cities and seaports through which exports and imports pass. Study the great commercial and industrial cities. The leading railway and water thoroughfares of the United States and the principal lines of commerce of the world: where commerce goes and where it does *not* go, and why.

HISTORY.

(1 hour a week.)

The main object in teaching history is not the acquisition of information, nor merely the development of the faculties; it is, or should be, the awakening of a love for historical reading that will grow as the mind of the pupil grows. This desirable object can best be reached by beginning the study of history very early in the school course and continuing progressively through the grades.

In the first, second and third grades, as a preparation for history, stories should be told by the teacher that embody the essential truths of general history. The material may be taken from mythology, fable, romance or poetry, and adapted to the capacity of the pupils. Describe visits to historic places and buildings in and near Boston. Anything that partakes of the nature of a ghost story should be avoided.

The following books will be found useful for the teacher: Tanglewood Tales, Hawthorne; Fairy Tales, Stickney; Folk Stories and Fables, Scudder; German Popular Tales, Grimm; Wonder Book, Hawthorne.

FOURTH GRADE. (1 hour a week).

Continue story-telling, and make such a study of the Indians as is suggested by the following topics. Use sketches on the blackboard, and pictures.

Life in tribes: chiefs, warfare.

Indian child: dress, cradle, pets, games, toys.

Homes: how made; fire: how built; food, furniture, work of women.

Manners and customs. Trade. Money. Justice. Medicine men. The Great Spirit. Happy hunting grounds. Treatment by the white men.

FIFTH GRADE. (1 hour a week.)

Continue story-telling. review study of the Indians, and study the Esquimaux as indicated. Use pictures and sketches on blackboards.

Appearance and dress.

Houses: shape, size, how built, how warmed, and how furnished.

Food: kind, how obtained, how used.

Dogs: description, food, how used, characteristics.

Sledges: how made, size, how used, boats, weapons, utensils.

Arctic animals: bear, deer, seal, walrus.

Child: dress, games, pets.

Social customs: schools, money, laws, home life, books.

Country: climate, summer and winter, day and night, sunset and moonlight.

Vegetation: forests, what grows.

The following books will be found useful for reference in the fourth and fifth grades: Famous American Indians, Edward Eggleston; Manners and Customs of the American Indians, Catlin; Among the Indians, Boller; Indian History for Young Folks, Drake; The Story of the American Indian, Brooks; Polar World, Hartwig; Adrift in the Ice Fields, Hall; Children of the Cold, Schwatka; Houses and House Life of American Aborigines, Morgan; World of Ice, Ballantyne.

SIXTH GRADE. (1 hour a week.)

An elementary American History should be used in this grade as a supplementary reading-book. Review the work of previous grades by having pupils tell the stories they have read. Encourage pupils to gather facts from outside books. Study the stories of Columbus and Queen Isabella. The Discovery of America. Captain John Smith and Pocahontas. The Pilgrims. Stories of the Revolution.

Read lives of persons famous in American history. Life in the colonies. Brave Men and Women. The Quakers — William Penn and the Indians. The Boston Tea Party.

Books recommended for teachers' use:

Stories of American History, Dodge. United States History in words of one syllable, Pollard. American History Stories, Pratt. The Boston Tea Party and other Stories of the Revolution, Watson.

SEVENTH GRADE. (1 hour a week.)

History of the United States continued. Earliest inhabitants, Mound Builders and Indians; discoveries, and explorations. First settlements in North America.

The pupils to sketch maps representing the results of the discoveries of explorers and the possessions and claims of European nations in North America.

Stories of noted men before Revolutionary period.

Books suggested:

Book of American Explorers, Higginson. Story of discovery, Hale. Old Times in the Colonies, Coffin. Stories of American History, Wright;—Yonge. Boys and Girls of the Revolution, Woodman. Historical Readers, Gilman. The Story of Grandfather's Chair, Hawthorne.

EIGHTH GRADE. (3 hours a week.)

Theories of the first peopling of America.

Mounds and Mound Builders.

Indians: their right to the land.

Explorers: most prominent of each nation.

Colonizing: particular attention given to Massachusetts and Virginia.

Study the characters of the leading men of the times, John Smith, Miles Standish, William Penn, etc.

Manners and customs in the colonies.

Objects of the intercolonial wars: condition of the colonies at their close, forms of government, manners and customs.

Revolutionary War: time spent on this topic should be devoted chiefly to the principles involved, to the study of the character of leading men, and to the results of the war.

Learn the Preamble.

NOTE. Physiology will take place of history the last half of the year.

NINTH GRADE. (3 hours a week.)

The administrations may be studied in the manner indicated by the following outline: (a) political issues and changes; (b) industrial changes; (c) foreign relations; (d) extensions of territory and settlements.

Maps should be drawn by the pupils, showing the several acquisitions of territory.

War of 1812 and Civil war: principles involved, causes, one or two prominent battles studied, character of leading men, results.

Biographical studies: Benjamin Franklin, Alexander Hamilton, Aaron Burr, Henry Clay, Daniel Webster, William Lloyd Garrison, John Brown, Lincoln, Grant, Lee, Sherman, Sheridan.

Books recommended: *The Courtship of Miles Standish*, Longfellow; *Leather Stocking Tales*, Cooper; *The Virginians*, Thackeray; *Evangeline*, Longfellow; *Franklin's Autobiography*; *Irving's Life of Washington*; *Lowell's Bigelow Papers*; *Lossing's Eminent Americans*; *Whittier's Angels of Buena Vista*; *Days and Nights on the Battlefield*, Coffin.

NOTE. For more complete outline in history for grades eight and nine, see prepared pamphlet.

Civil Government will take the place of history the last half of the ninth year.

ARITHMETIC.

FIRST GRADE. (4 hours a week.)

1. Add, subtract, multiply, and divide whole numbers, with objects and figures, from one to ten, inclusive. Take halves, thirds, and quarters of numbers evenly divided.

2. Applications of numbers from one to ten.

3. Coins from one cent to ten cents, inclusive; pint, quart; quart, peck; inch, foot, yard.

4. The signs \times , $-$, \times , \div , $=$; and the terms add, subtract, multiply, and divide.

5. Count, write, and read numbers to 100; Roman numerals to ten.

6. Many original concrete problems should be composed and solved by the pupils.

7. In Colburn's First Lessons take to Section II.

SECOND GRADE (4 hours a week.)

1. Add, subtract, multiply, and divide whole numbers, with objects and figures, from one to twenty-five, inclusive, with halves, thirds, quarters, and fifths of numbers evenly divided.

2. Applications of numbers from one to twenty-five.

3. Practical measurements with the gill, pint, quart, gallon; quart, two-quart, peck, half-bushel; inch, foot, yard, rod; ounce and pound, — having the measures in hand; coins to dollar.

4. Write and read integers of one period. Increase and diminish numbers by 2's, 3's.

5. Write and read Roman numerals to twenty-five.

6. In written work, no multiplier or divisor greater than 12 is required. Continue original concrete problems.

7. In Colburn's, take to Section III.

Suggestions: Rapid mental work, abstract and concrete, throughout the course, — a daily exercise. The addition, subtraction, multiplication, and division tables to be taught each year as high as the development. Figures should be made well and neatly arranged. Frequent exercises upon the addition of columns of figures. An addition chart or tablet is recommended. Let the children buy and sell. Lead pupils to find their own errors. To point out mistakes is to encourage careless and lazy habits.

THIRD GRADE. (4 hours a week.)

1. Complete development of numbers through 100.
2. In addition to 3 of the second grade, take unit, dozen, score; second, minute, hour, day, week, month, year; time of day by clock.
3. Write and read integers of five figures.
4. In written work, no multiplier or divisor greater than 12 is required. Increase and diminish numbers by 2's, 3's, 4's.
5. Write and read dollars and cents.
6. Add, subtract, multiply, and divide dollars and cents, the multipliers and divisors to be integers of one figure.
7. Write and read Roman numerals to 100.
8. Colburn's First Lessons to Section V.

FOURTH GRADE. ($4\frac{1}{2}$ hours a week.)

1. Write and read integers of six figures.
2. Relations and applications of numbers to 144.
3. In written work, multipliers and divisors to be integers of not more than two figures. Count by 2's, 3's, 4's, etc.; also diminish by the same. Definition of signs and terms of addition, subtraction, multiplication, division.
4. The units of United States money, — dollars, cents, and mills, — with their relations and applications; multipliers and divisors to be integers of not more than two figures. Make bills for dry goods and common articles of food and clothing.
5. Write and read Roman numerals to two hundred.
6. Colburn's First Lessons to section VII.

REMARKS. — Oral work at sight to precede and follow written arithmetic, for the purpose of training the mind to think promptly and accurately. This direction is to be observed in all succeeding grades.

FIFTH GRADE. ($4\frac{1}{2}$ hours a week.)

1. A careful review of the work of the preceding grades, taking up the four rules with a great variety of practical illustrations.

2. Concrete problems in United States money, and bills.
3. Cancellation; properties of numbers; simple oral problems in common fractions.
4. Colburn's First Lessons to page 119.

REMARKS. — Pupils in this grade should be able to add, subtract multiply, and divide accurately, and nearly or quite as rapidly as they talk.

SIXTH GRADE. (4 hours a week.)

1. Common fractions (explanations) ; decimal fractions.
2. Colburn's First Lessons to Section 10.
3. Write common per cents in three forms ; simple oral work in percentage.

REMARKS. — The pupils of every grade should continually review the work of the preceding grades.

SEVENTH GRADE. (4 hours a week.)

1. Denominate numbers ; longitude and time ; mensuration.
2. Problems in Weights and Measures containing fractions are not to be slighted ; review common per cents and oral work in percentage.
3. Colburn's first lessons to Section 11, and from Section 12 to Section 13.

EIGHTH GRADE. ($4\frac{1}{2}$ hours a week.)

1. Percentage, profit and loss, commission and brokerage, capital stock, insurance, taxes, customs or duties, bankruptcy, simple and compound interest.
2. Keep fractions thoroughly reviewed.
3. Colburn's to Section 12, and from page 185 to 189.

NINTH GRADE. (4 hours a week.)

1. Bank discount, business discount, promissory notes, partial payments, stock investments, exchange, equation of payments, ratio and proportion, partnership, square root with its common applications, areas of triangles, circles, spheres, cones, common measurement of solids as boards, etc.
2. General review ; complete and review Colburn's First Lessons.
3. Book-keeping by single entry. (Last half of the year.)

PHYSIOLOGY.

Physiology is taken up in the grades below the eighth as outlined under observation lessons.

EIGHTH GRADE. ($\frac{1}{2}$ year, 3 hours a week.)

The bones: position, shape, and use. The muscles: location, construction, and uses; hygiene of the bones and muscles. The skin: position, qualities and uses; hygiene of the skin. Circulation: how, for what purpose; hygiene of the blood. Respiration: organs, position of organs; hygiene of lungs; digestive organs: position, construction, and uses; hygiene of the digestive organs. Practical experiments to be taken up under each topic.

NINTH GRADE. ($\frac{1}{2}$ year, 3 hours a week.)

1. The nervous system: the brain and the nerves.
2. The brain: position, composition and uses.
3. The nerves: position, composition and uses; nerves of feeling and of motion; hygiene of the nervous system.
4. Topical review of the organs of sense: the bones and muscles, circulation, respiration and digestion.
5. Topical review of the relations of the water we drink, the food we eat, and the air we breathe, to health.
6. Simple experiments to show the origin, properties, and uses of alcohol, and its effect upon the human body.
7. Practical experiments under each topic.

WRITING.

GENERAL OBSERVATIONS.

1. The daily exercises in writing *must* be, in every case, the best possible effort of the pupil. The teacher's own writing should be good, and like that in the prescribed copy-books. In the primary grades the copy should sometimes be set upon the slates, as well as on the blackboard. Pupils should use long, well-sharpened pencils, held in the right hand, and should sit in good positions.

FIRST GRADE. (2 hours a week.)

1. Writing movements; small script letters to be carefully taught, and names learned; capitals as needed in busy work. (b) Copying letters, words, and sentences from the blackboard and from slips; (c) each pupil to write his own name in full; (d) short, easy sentences written from dictation.

SECOND GRADE. (2 hours a week.)

1. Copying letters, words, and sentences from the blackboard and from slips of paper. (b) Daily drill in the correct formation of letters; (c) writing selections from the reading-book; (d) words and short sentences written from dictation; (e) tracing book may be used.

THIRD GRADE. (2 hours a week.)

1. (a) Copying from the blackboard and from slips of paper; (b) write selections from the reading books, and sentences from dictation; (c) drill in the correct forms, slant, and spacing of letters and the spacing of words.

2. In this and succeeding grades use pen and ink, giving careful attention to the manner of holding the pen, also to position of pupils.

NOTE: Muscular movement is recommended in all grades.

THIRD TO NINTH GRADE.

Fourth and fifth grades, two hours a week; sixth, seventh, eighth, one and one half hours a week.

1. Practice in free movements of hand and arm before every lesson; (b) analysis of different letters; (c) drill in correct slope, spacing of letters, and spacing of words; (d) complete the copy book assigned; (e) write dictated exercises, memory gems, and choice extracts in blank books.

NINTH GRADE. (1 hour a week.)

1. (a) In the last half-year exercises in writing to be connected with book-keeping; (b) complete copy book assigned; (c) write compositions and dictated exercises, commercial forms, telegrams, and business letters, in blank books and on practice paper.

SPELLING.

GENERAL SUGGESTIONS.

Oral spelling as a review exercise by sound and by letter should be given throughout the course. The primary object of oral spelling should be correct pronunciation. The pupil should pronounce the word *very distinctly* before spelling it. The division of words into syllables is an important matter, and should receive careful attention. The daily written spelling *must*, in every case, be the best specimen of penmanship which the pupil is capable of producing.

FIRST GRADE. (1 hour a week.)

(1.) Oral as soon as children learn to recognize script representations in reading.

- (2.) Spell words that occur in the reading lesson.
- (3.) Words and sentences in the reading lessons to be copied from the blackboard and written from dictation.
- (4.) Pupils to spell their own names.

SECOND GRADE. (1 hour a week.)

- 1. Words in the reading lesson to be copied from the blackboard and afterwards to be written by the pupils from dictation. Oral and written sentence building by the pupils from words used in the grade.
- 2. Harrington's Spelling-Book, Part I., first twenty-five pages.

THIRD GRADE. (1 hour a week.)

- 1. Spell and write words in the reading lesson, and afterwards write them in sentences.
- 2. Frequent review of common and difficult words often misspelled.
- 3. Harrington's to page 45.

FOURTH GRADE. (1 hour a week.)

- 1. Oral and written spelling of words from the reading, language and geography lessons. Frequent review of words that are often misspelled, and of words pronounced the same and spelled differently, as hear, here, etc.
- 3. Written spelling of the more difficult words in blank books, the books to be kept for reviews.
- 4. In this and higher grades pupils should be required, as an exercise in language, to use in original sentences, and sometimes define, the common words taught.
- 5. Harrington's, Part I., page 61.

FIFTH GRADE. (1 hour a week.)

- 1. The use of blank books should be continued in this grade, also construction of original sentences. Attention should be given to words spelled alike, but accented differently; also to common prefixes, abbreviated and contracted forms.
- 2. Harrington's Graded Spelling-Book, Part I. to page 78.

SIXTH GRADE. (1 hour a week.)

- 1. Same as fifth grade.
- 2. Study diacritical marks.
- 3. Harrington's, Part II. to page 25.

SEVENTH GRADE. (1 hour a week.)

1. Same as fifth grade.
2. Careful study of diacritical marks.
3. Harrington's Part II. to page 49.

EIGHTH GRADE. (1 hour a week.)

1. Same as fifth grade.
2. Study easy homonyms and synonyms.
3. Careful study of diacritical marks.
4. Harrington's, Part II. to page 73.

NINTH GRADE. (1 hour a week.)

1. Same as fifth grade.
2. Homonyms and synonyms studied.
3. Careful study of the use of diacritical marks.
4. Harrington's, Part II. to page 92.

DRAWING.

FIRST YEAR. (1 hour a week.)

Models. — Solids : sphere, cube, cylinder. Tablets : circle, square, oblong. Sticks : one to five inches long.

Forms. — Sphere, cube, cylinder, as wholes ; construct, by moulding in clay, objects based upon them. Teach surface, faces, edges, corners, arrangement of tablets into posts, crosses, easy borders, etc. ; give exercises in stick laying.

Expression. — Construction : using clay, paper, and sticks. Drawing upon slates and blackboard. Oral description.

SECOND GRADE. (1 hour a week.)

Models. — In addition to first year, solids : hemisphere, square prisms, triangular prisms, ellipsoid, oval. Tablets : semicircle, oblong, triangles, ellipses oval.

Form. — Review first year work. Teach from models, hemisphere, prisms, ellipsoid, ovoid, as wholes. Teach surfaces, faces, lines, angles, right-triangle, diameters. Teach to bisect, trisect, quadri-sect.

Expression. — By construction : using clay, paper, and splints. Drawing upon slates, blackboard, and paper. Oral description.

Design. — In making designs use sticks, tablets, and colored paper cut in different forms. Principles of designing. Repetition, alternation, and symmetry. Arrangement, borders, centres.

THIRD GRADE. (1 hour a week.)

Models. — In addition to the models already suggested, use cone; square, pyramid, vase forms.

Form. — Review first and second year's work, and teach new models by suggestions already given.

Expression. — By construction; using clay, paper, and sticks. Drawing upon slates, blackboard, and paper. Oral description.

Design. — Use sticks, tablets, colored paper cut in different forms. Principles: repetition, alternation, symmetry. Arrangements: borders, centres, patterns.

FOURTH GRADE. (1 hour a week.)

Models. — Sphere, hemisphere, cube.

Tablets. — Circle, semicircle, square.

Objects. — Fruits, leaves, fans, boxes, etc.

Give particular attention to paper folding and pattern making, and to drawing from models constructed by the pupils.

Book No. 1, Prang's Shorter Course. Manual for Shorter Course, twenty-eight pages.

FIFTH GRADE. (1 hour a week.)

Models. — Cylinder, square, prism, vase form. Tablets: circle, square, oblong. Objects: tumblers, bowls, boxes, vegetables, leaves, etc.

Drawing from objects continued, and decorative designing begun.

Book No. 2, Prang's Shorter Course. Manual for Shorter Course, pages 28 to 54.

SIXTH GRADE. (1 hour a week.)

Models. — Ellipsoid, ovoid, triangular prism, cylinder. Tablets: ellipse, oval, equilateral triangle. Objects: fruits, leaf, and flower forms.

Give special attention to original decorative designing and industrial construction.

Book No. 3, Prang's Shorter Course. Manual for Shorter Course, pages 55 to 88.

SEVENTH GRADE. (1 hour a week.)

Models. — Cubes, cylinder, cone, square, prism.

Objects. — Cubical, cylindrical, and conical objects, vases, open books.

Give special attention to spiral curves, conventionalized leaves, and to drawing twigs and branches.

Book No. IV., Prang's Shorter Course.

Manual for Shorter Course, pages 90 to 116.

EIGHTH GRADE. (1 hour a week.)

Models. — Cube, square, pyramid, square plinth, and the various forms of prisms.

Objects. — Writing desk, books, plant forms, ornaments.

Book No. V., Prang's Shorter Course.

Manual for Shorter Course, pp. 120 to the end.

NINTH GRADE. (1 hour a week.)

Models. — Rectangular, cylindric, triangular, and framing models, steps and pulleys.

Objects. — Various rectangular and cylindric objects, plant forms and ornaments.

Prang's Clark Edition, Book No. VIII.

MUSIC.

FIRST GRADE. (1 hour a week.)

Prepared by Instructor of Music.

1. Songs and exercises with words taken from the New First Music Reader, from page 5 to page 14, inclusive, by rote. Other carefully selected rote songs may be taken as the class advances. Suitable selections may be found on pages 55 to 120, inclusive.

2. Take the scale exercises by numerals and syllables from the blackboard, according to directions and examples in Veazie's Music Primer.

3. In the New First Series of Charts, take from pages 2 to 7, inclusive, using scale-names, pitch-names, syllables, and words.

4. Review the work indicated in 3, giving great care to teaching time-beating and time-names. On the proper performance of this work at this stage, lies the foundation of proficient rhythmical drill in advanced classes.

SECOND GRADE. (1 hour a week.)

1. On the chart review thoroughly from page 2 and advance to page 20. All exercises and songs to be sung by scale-names, syllables, and pitch names; first repeating time-names and beating time. In singing, beating time may be confined to singing by syllables and words.

2. Dictation exercises daily, teacher calling scale names, and pupils singing syllables. Carefully selected rote songs may be given at the discretion of the teacher.

NOTE. — In this and following grades, practice the class in beating time as an art one minute at the beginning of every music lesson. Require military precision. Teachers should be able to report to the

Instructor of Music at any time upon the progress of each pupil in music.

THIRD GRADE. (1 hour a week.)

1. Review the work of preceding classes from the Music Reader, and take to page 40 on the chart. Rote songs and daily dictation exercises continued.
2. In all songs and exercises, first give time-names with beating time; then learn by reciting syllables and pitch-names. Individual drill, in giving time-names and singing, is recommended.
3. See note, second year.

FOURTH GRADE. (1 hour a week.)

1. Thorough practice on songs and exercises on first twenty pages of New Second Series National Music Charts.
2. Teach all the exercises and songs in first thirty-seven pages of New Second National Music Reader (omit introduction).
3. Every song and exercise should be time-named with beating time before singing; then learned by syllable, and finally by words; always beating time.
4. Teachers should test the voices of the pupils individually (see test examples in Readers, page 165, Nos. 1-13). Continue dictation exercises (see note, relative to beating time, second year).

FIFTH GRADE. (1 hour a week.)

1. Review from page 26, New Second Reader, and advance to page 76. Pupils must be able to beat the time correctly in all the exercises and songs, both in practice with time names and in singing.
2. Other songs may be used at the discretion of the teacher. Dictation exercises should be continued. Teachers should test the voices individually. Cultivate pure tones and distinct enunciation.
3. See note relative to beating time, second year.

SIXTH GRADE. (1 hour a week.)

1. Review from page 58, and proceed to bottom of page 100. At least one additional song in each key should be given (see miscellaneous pieces, part III).
2. Pupils must be able to beat the time correctly in all songs and exercises, both in practice with time names and in singing.
3. Pupils should be able to write correctly all the different scales.
4. For practice in beating time, see note, second year. Special care should be given to distinct articulation.

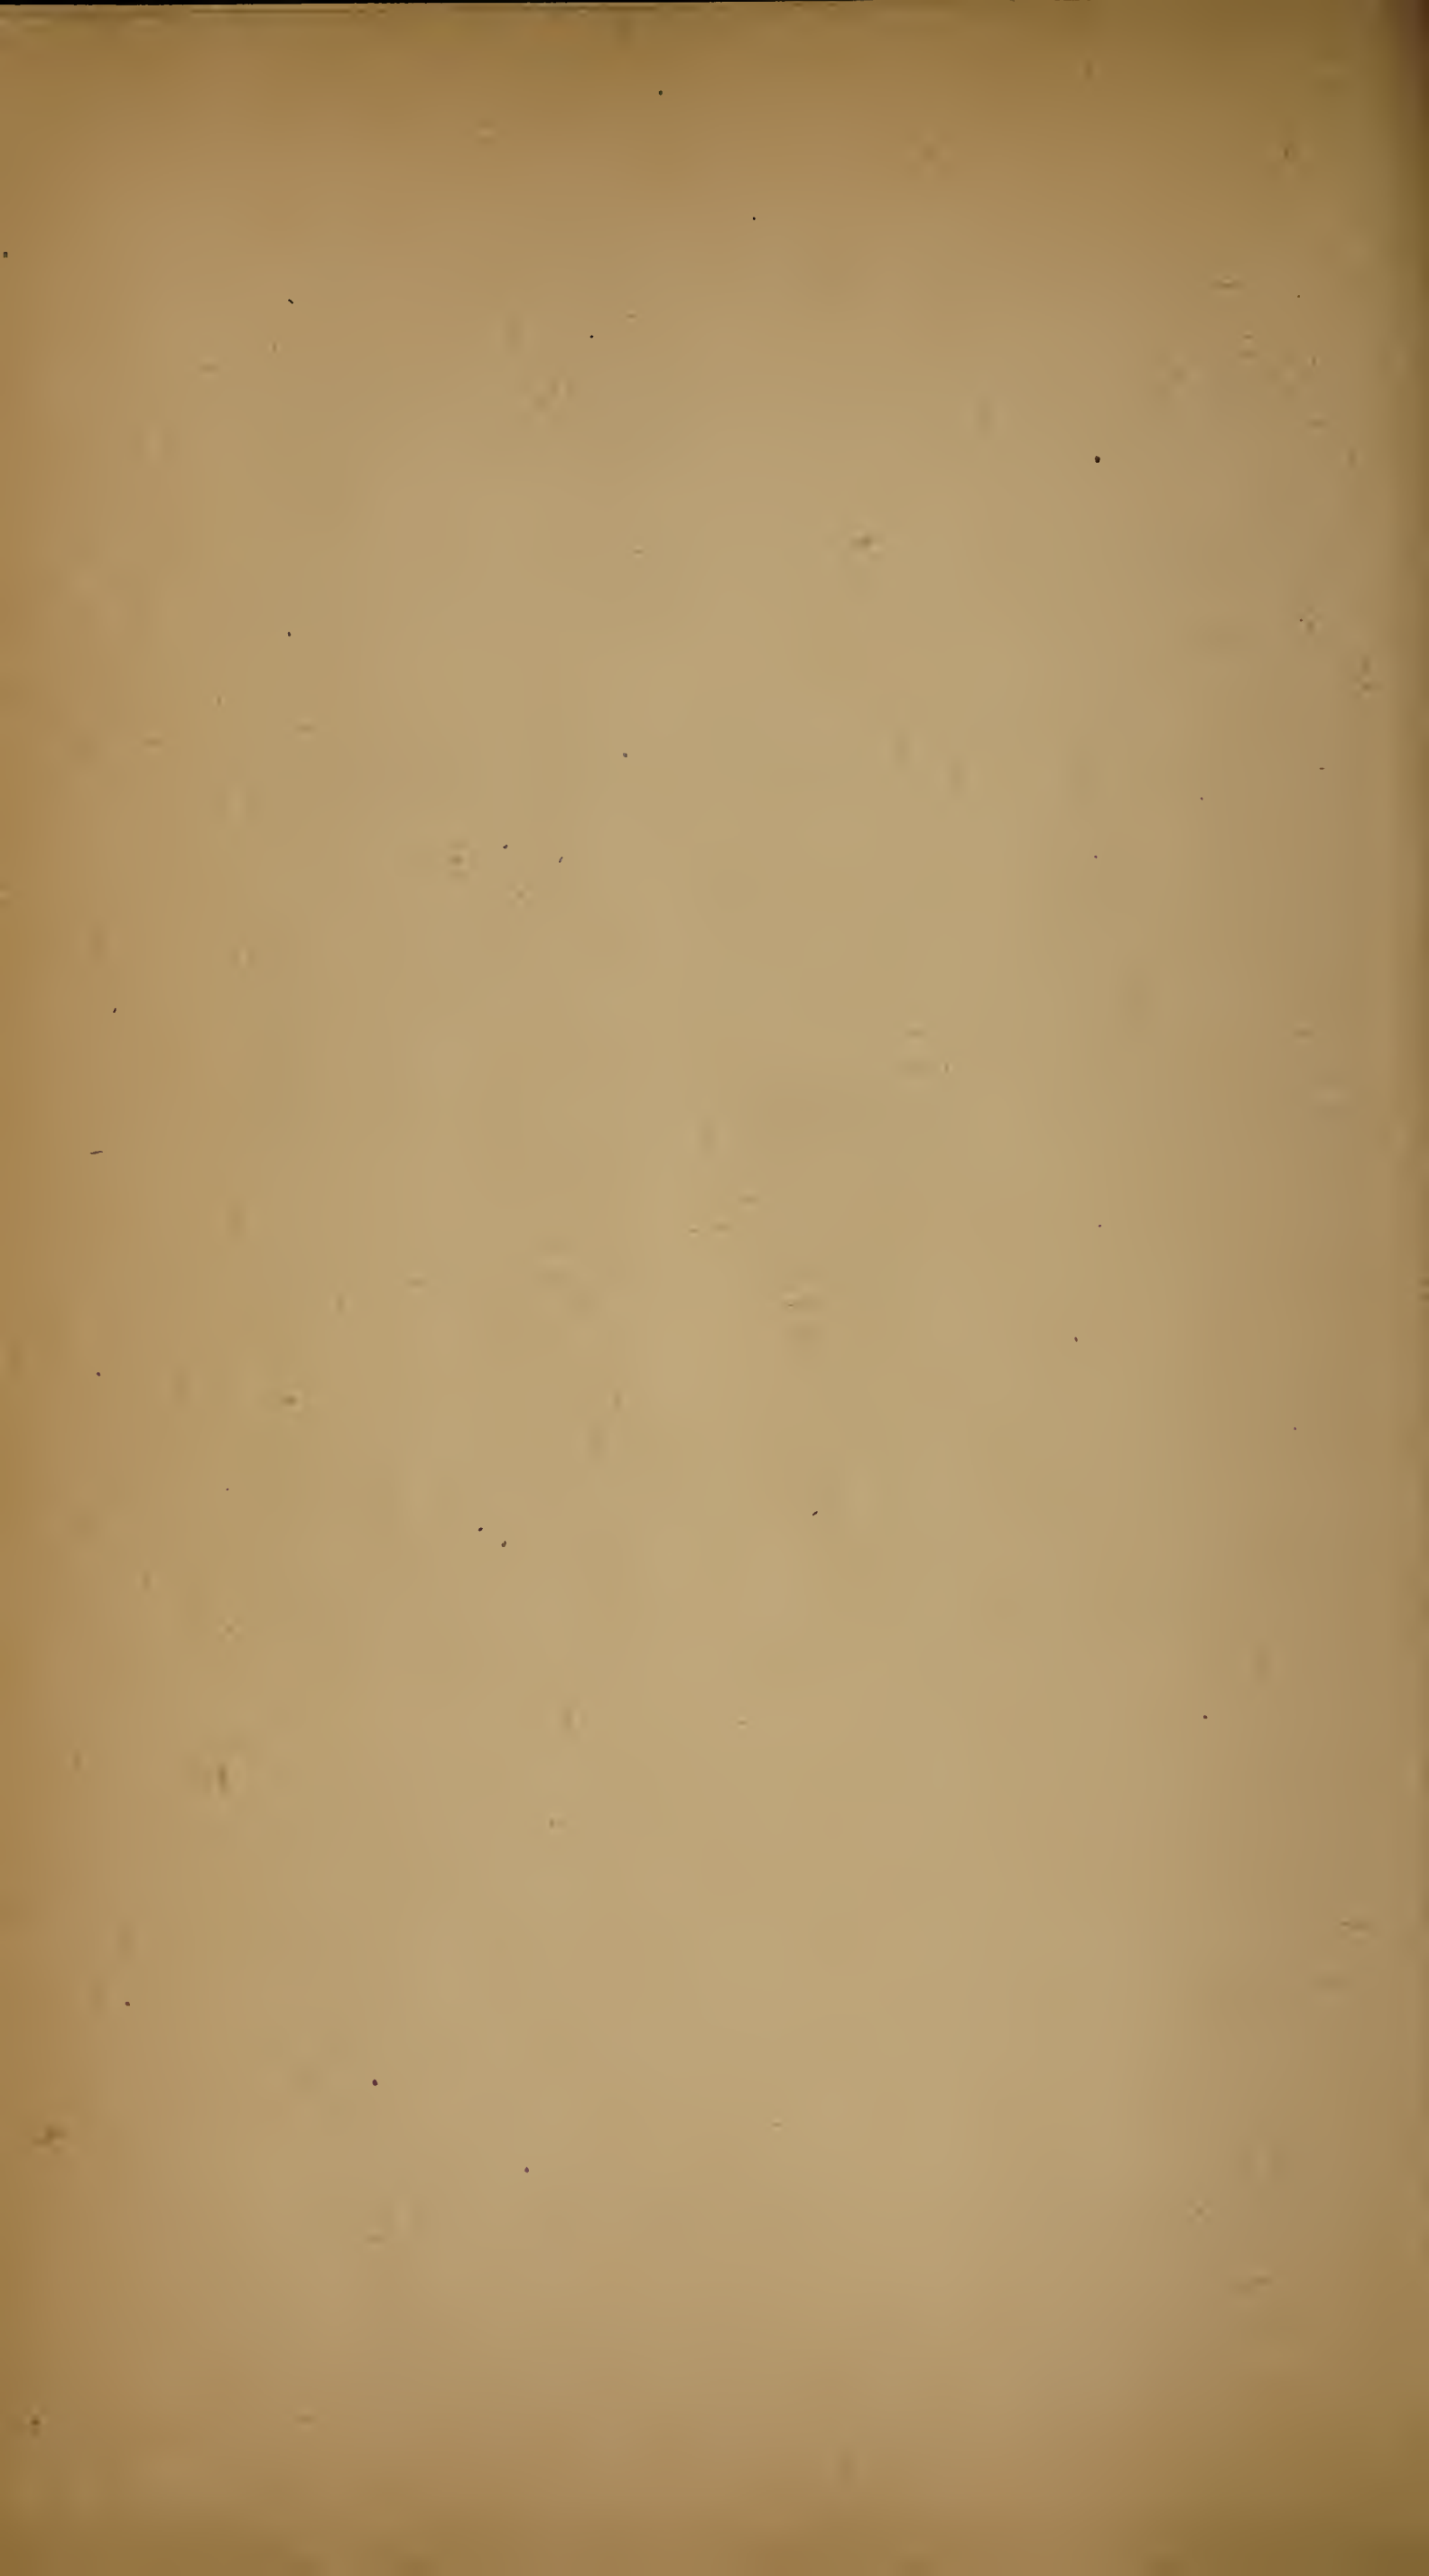

SEVENTH, EIGHTH AND NINTH GRADES.

1. The New Third Music Reader should at present be used in these grades. Only general directions can be given. Practice of two-part

songs should be continued as long as practical, on account of the greater freedom in range of voice in that kind of composition. Three-part songs will be given at the discretion of the special Instructor of Music.

2. Special care should be taken to have the pupils sing with expression. It is not by singing, merely, that the taste is improved, but by *expressive* singing.

NOTE. — In all grades require good position, soft, pure tone of voice, and brisk movement. Schools containing grades one and two should spend about two months on exercises in Veazie's Music Reader, and rote singing. After this time pursue about the same course as indicated for grade two. Schools consisting of grades three and four should pursue as nearly as may be, the course indicated for grade four; and schools consisting of grades five and six should, as nearly as possible, take the same course as that indicated for grade six. In schools consisting of the first five or six grades, the work cannot be definitely indicated. The general plan should be to advance the upper grades as fast as consistent with thoroughness.

HIGH SCHOOL COURSES OF STUDY.

(Adopted Sept. 21, 1891.)

GRADE X. (FIRST YEAR).

ENGLISH COURSE.

MATHEMATICS.	SCIENCES.	LANGUAGES.	MISCELLANEOUS.
Book-keeping, 16-4. Commercial Arithmetic, 12-4. Algebra, 28-4. Algebra, 12-4. (Elective.)	Physical Geography, 12-4. Commercial Law, 12-4. (Elective.) ASSESSORS' REPORT.

The undersigned, Assessors of the town of Weymouth, herewith submit the following report of their work for the year ending Dec. 31, 1891 : —

We have assessed upon the polls and estates of all persons and corporations liable to taxation in said town the sum of \$126,391.67, which sum was duly committed to Alfred O. Crawford, Esq., collector of taxes, with a warrant in due form of law for collection and payment in accordance with a vote of the town.

Town grant, \$111,010.57; State tax, \$4,710; county tax, \$5,220.07; non-resident bank tax, \$5,272.29; overlayings, \$178.74.

Number of polls assessed, 3,050 male; 12 females.

Number assessed for a poll only	1,589
Amount of personal estate assessed	\$1,705,980
Amount of real estate assessed	\$4,828,760
Total valuation	\$6,534,740
Increase from last year	\$110,055
Number of dwelling-houses	2,277
Acres of land	9,647
Horses	1,120
Cows	684
Neat cattle other than cows	35
Swine	190
Sheep	1
Fowl	1,380
Amount of abatements and remittances	\$641 84

In accordance with a vote of the town, we have prepared and caused to be published the valuation and tax of all parties assessed on property.

As the names of all persons assessed for a poll had already been published, as required by law, we did not deem it advisable to go to the expense of publishing the names of those assessed for a poll only.

Respectfully submitted,

JOHN P. BURRELL,
WILMOT CLEVERLY,
GEORGE H. BICKNELL,
GILMAN B. LOUD,
J. CLARENCE HOWE,
Assessors of Weymouth.
